invaluable *Fairness in International Criminal Trials* Yvonne McDermott, 2016-01-21 With the acceptance of international criminal procedure as a self sustaining discipline and as the tribunals established to try the most serious crimes in the former Yugoslavia Sierra Leone and Rwanda have completed or are beginning to wind up their activities the time is ripe for a critical evaluation of these international criminal tribunals and their legacy By examining the due process standards embraced by the five contemporary international criminal tribunals the author draws conclusions about how the right to a fair trial should be interpreted in international criminal law This volume addresses key conceptual questions on fairness including should international criminal tribunals set the highest standards of fairness or is it sufficient for their practice to be just fair enough To whom does the right to a fair trial attach and can actors such as the prosecution and victims be accurately said to benefit from that right Does fairness require the full realization of a number of guarantees owed to the accused under the statutory frameworks of international criminal tribunals or should we instead be concerned with the fairness of the trial as a whole What is the interplay between domestic and international courts on questions of procedural fairness What are the elements of fairness in international criminal proceedings And what remedies are available for breaches of fair trial rights Through an in depth exploration of the right to a fair trial the author concludes that international criminal tribunals have a role in setting the highest standards of due process protection in their procedures and that in so doing they can have a positive impact on domestic justice systems **The Public Defender Service of the District of Columbia: Training materials** ,1980
