Counter Terrorism Narrative Strategies:

Counter-terrorism Ajit K. Maan, 2015 Understanding and harnessing the persuasive powers of narrative is central to US and international counter terrorism efforts There is an urgent need to understand the narrative tactics of terrorist recruitment and an equal if not greater need to destabilize and exploit the weaknesses of those narratives Maan makes a connection unique to terrorism studies between the mechanisms of colonizing narratives and psychological warfare aimed at the recruit The power of both relies on misidentification both types of narratives encourage individuals to take actions contrary to their best interests and both are insidious they are continued internally without the implementation of external physical force While these narrative strategies have been powerful Maan makes the argument also unique to terrorism studies that certain types of compositional structures lend themselves to manipulation and the weakness of those structures can be exploited from a security standpoint Narrative Warfare Ajit Maan, Ajit Maan Ph D, 2018-04-03 Contemporary wars are largely wars of influence and they will not necessarily be won by those with the most information or the most accurate data They will be won by those effectively tell the meaning of the information and what difference it makes for the audience

Narrative Justice Rafe McGregor, 2018-09-16 This book introduces narrative justice a new theory of aesthetic education the thesis that the cultivation of aesthetic or artistic sensibility can both improve moral character and achieve political justice The author argues that there is a subcategory of narrative representations that provide moral knowledge regardless of their categorisation as fiction or non fiction and which therefore can be employed as a means of moral improvement McGregor applies this narrative ethics to the criminology of inhumanity including both crimes against humanity and terrorism Expanding on the methodology of narrative criminology he demonstrates that narrative representations can be employed to evaluate responsibility for inhumanity to understand the psychology of inhumanity and to undermine inhumanity and are thus a means to the end of opposing injustice He concludes that the cultivation of narrative sensibility is an important tool for both moral improvement and political justice **Cultural, Religious and Political Contestations** Fethi Mansouri, 2015-05-06

Extremist Islam Kumar Ramakrishna, 2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia
