This work drawn from a symposium held at the University of Texas El Paso in March 1992 brings together scholars from all over North America as well as other parts of the world to study diverse aspects of the comedia from an intellectual academic perspective. Seven different aspects of the comedia are examined in detail: Spain and the New World; Staging the Comedia Then and Now; Feminist and Gender Studies; Critical Approaches; From Philosophy to Psychology; Themes, Myths and Archetypes; The Comedia in History; The Text and Authenticating and Editing. The variety and depth of these attest to the dynamic state of comedia studies at the end of the twentieth century and shows that Golden Age theatre still delights us aesthetically and stimulates us intellectually.
