## **Business Week Magazine Customer Service:**

**Business Week**, 2007      **Good Company** Laurie Bassi, Ed Frauenheim, Dan McMurrer, Larry Costello, 2011-09-06 We're losing patience with bad companies. We're fed up with the greed of Goldman Sachs, sickened by BP's pollution, tired of tainted food, tightfisted employers, and phony corporate social responsibility. And Laurie Bassi and her co-authors have news: the bad boy days are over. We're at the dawn of the Worthiness Era when doing the right thing is no longer optional; it's the key to success. And they've got the data to prove it. Good Company lays out the convergence of social, economic, and political forces ranging from the explosion of online information sharing to the emergence of the ethical consumer and the rapid expansion of the green market that are ushering in this new era. Moreover, the authors prove the connection between good corporate behavior and the bottom line with their Good Company Index. Using publicly available information as well as original research, the Good Company Index evaluates each of the Fortune 100 companies as an employer, seller, and steward, and then gives it a final grade. Among the surprising findings, only two Fortune 100 companies get an A, while a number of highly respected companies get a C or worse. Overall, companies in the same industry with higher rankings on the index consistently outperform their competitors. And this is not some academic exercise; the authors have used the principles of the index at their own investment firm to deliver market-beating results. Using a host of real-world examples, Bassi and company carefully explain each aspect of corporate worthiness, offering companies a guide to what it now takes to win customer loyalty. Good Company moves the debate about corporate citizenship from the realm of faith to the realm of facts, showing it's no longer a question of ethics or virtue; it's a matter of survival. Winner of the gold medal in the Business Leadership category of the 2012 Nautilus Book Awards and Choice Magazine's Outstanding Academic Title Award.      Reframing Organizations Lee G. Bolman, Terrence E. Deal, 2011-01-11 First published in 1984, Lee Bolman and Terrence Deal's best-selling book has become a classic in the field. Its four-frame model examines organizations as factories, families, jungles, and theaters or temples. The Structural Frame: how to organize and structure groups and teams to get results. The Human Resource Frame: how to tailor organizations to satisfy human needs, improve human resource management, and build positive interpersonal and group dynamics. The Political Frame: how to cope with power and conflict, build coalitions, hone political skills, and deal with internal and external politics. The Symbolic Frame: how to shape a culture that gives purpose and meaning to work, stage organizational drama for internal and external audiences, and build team spirit through ritual, ceremony, and story. This new edition is filled with new case examples, such as Hurricane Katrina, and profiles of great leaders, such as Mother Teresa, Thomas Keller, and others. In addition, the book updates the Organizational Theory's Greatest Hits text boxes throughout and increases geographic, cultural, and gender diversity in examples and text. It also features an enhanced online teacher's guide with a new test bank, as well as updated PowerPoint slides, teaching ideas, and experiential activities, and links to resources.
