Monitor Linda K. Fuller, 2011-09-12 This text provides a unique examination of The Christian Science Monitor a highly respected venerable news publication that has survived over a century of changes and challenges The Christian Science Monitor is one of the world's leading journalistic publications having won multiple Pulitzer prizes for its reporting CSM is innovative and forward thinking as well it was one of the first newspapers to provide an online copy of its daily reporting in 1996 well before the popularization of the Internet But just like other publications The Christian Science Monitor will need to continue to reinvent itself in order to stay relevant and solvent in the face of plummeting readership numbers corporate takeovers and a widespread assumption that all of today's news sources are biased and inaccurate This book provides a thorough discussion of CSM's treatment of sensitive topics like terrorism international crises gender issues and sexual orientation The paper's attitudes toward ethnicity ethics economics philosophy and racism are also profiled The conclusion provides readers with an opportunity to draw upon their new knowledge of The Christian Science Monitor's past to project its direction for the future
