Christianity In The West 1400 1700:

Christianity in the West, 1400-1700 John Bossy, 1985 A study not of the institution of the Church but of Christianity itself this book explores the Christian people their beliefs and their way of life providing a new understanding of Western Christianity at the time of the Reformation Bossy begins with a systematic exposition of traditional or pre Reformation Christianity exploring the forces that tended to undermine it the characteristics of the Protestant and Catholic regimes that superseded it and the fall out that resulted from its disintegration

Christianity and Community in the West Simon Ditchfield, 2017-03-02 How did Christians in early modern Western Europe express their sense of community This book explores the various ways in which religious identities were defined developed and defended within both Protestant and Roman Catholic contexts in England and on the Continent over a period vital for the history of Christianity As such it will be of interest not only to historians of religion but also to students of social and cultural history in general

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA

A Century of Theological and Religious Studies in Britain, 1902-2002 Ernest Nicholson, 2003 The essays in this volume give an account of how the agenda for theology and religious studies was set and reset throughout the twentieth century by rapid and at times cataclysmic changes wars followed by social and academic upheavals in the 1960s by new movements of thought by a bounty of archaeological discoveries and by unprecedented archival research Further new trends of study and fresh approaches existentialist Marxian postmodern have in more recent years generated new quests and horizons for reflection and research Theological enquiry in Great Britain was transformed in the late nineteenth century through the gradual acceptance of the methods and results of historical criticism New agendas emerged in the various sub disciplines of theology and religious studies Some of the issues raised by biblical criticism for example Christology and the quest of the historical Jesus were to remain topics of controversy throughout the twentieth century In other important and far reaching ways however the agendas that seemed clear in the early part of the century were abandoned or transformed and replaced not only as a result of new discoveries and movements of thought but also by the unfolding events of a century that brought the appalling carnage and horror of two world wars Their aftermath

brought a shattering of inherited world views including religious world views and disillusion with the optimistic trust in inevitable progress that had seemed assured in many quarters and found expression in widely influential liberal theological thought of the time The centenary of the British Academy in 2002 has provided a most welcome opportunity for reconsidering the contribution of British scholarship to theological and religious studies in the last hundred years *The Dark Side of Christian History* Helen Ellerbe,1995 By denying evil we do harm By denying darkness we obscure the light Over a period of almost two millennia the Christian Church has oppressed and brutalized millions of individuals in an attempt to control and contain spirituality The Dark Side of Christian History reveals in painstaking detail the tragedies sorrows and injustices inflicted upon humanity by the Church This expose is a compelling and passionate cry for human dignity and spiritual freedom Book jacket

Introduction to Christian Liturgy Frank C. Senn,2012 Designed as a general introduction to Christian liturgy this book explores the meaning history and practice of worship in Eastern and Western Catholic and Protestant traditions Its chapters cover the theology of worship the historical development of Eucharist and the Prayer Offices the lectionary and customs of the church year other sacramental rites and the use of music and the arts As such it is a perfect textbook for students seeking to understand the basics of liturgical worship as well as a reliable guide for worship leaders

The People's Work Frank C. Senn,2010-08-10 Frank Senn ventures behind the liturgical screen behind the texts and behind the rubrics to reconstruct the everyday religious expression in Christian history Senn's magisterial *Christian Liturgy Catholic and Evangelical* 1997 has been widely hailed for its appreciation of the dynamic role of culture in shaping liturgical expression In *The People's Work* Senn delves further into the cultural home of liturgy looking at processions and pilgrimage communion practices and spiritual reading fasting and feasting all the myriad liturgical practices that have been the concrete life and primary work of the body of Christ

The New Poet Richard Danson Brown,1999-01-01 This gracefully written and well thought out study deals with a neglected collection of poems by Spenser which was issued in 1591 at the height of his career While there has been a good deal written in recent years on two of the poems in the collection *Mother Hubbard's Tale* and *Muiopotmos* Brown innovatively addresses the collection in its entirety He urges us to see it as a planned whole with a consistent design on the reader he fully acknowledges and even brings out further the heterogeneity of the collection but he examines it nevertheless as a sustained reflection on the nature of poetry and the auspices for writing in a modern world distancing itself from the traditions of the immediate past The strength of this work lies both in the originality of its project and in the precision and enterprise of the close reading that informs its argument Interest in the concern of Spenser's poetry with the nature of poetry is in the current critical mainstream but here the attentiveness is both unusually focused and unusually sustained Brown garners more than would be expected from the translations in the *Complaints* while at the same time including striking and individual chapters on the better known *Mother Hubbard's Tale* and *Muiopotmos* he advances understanding of these extremely subtle texts and fully justifies his wider

approach to the collection as a whole Arguing that Spenser's relationship to literary tradition is more complex than is often thought Brown suggests that Spenser was a self-conscious innovator whose gradual move away from traditional poetics is exhibited by the different texts in the Complaints He further suggests that the Complaints are a poetics in practice which progress from traditional ideas of poetry to a new poetry that emerges through Spenser's transformation of traditional complaint

Ancient and Modern Scriptural Historiography George J. Brooke, Thomas Römer, 2007 This collection of nineteen essays is the fruit of ongoing collaboration in Biblical Studies between the Universities of Geneva Lausanne Manchester and Sheffield The essays are arranged under three headings General Studies Hebrew Bible and Early Judaism and New Testament Early Christianity and their Contexts but share many overlapping interests In particular the studies show intriguingly that the concerns of ancient historians are both similar to and different from those of modern historians Several contributions also demonstrate that the historical value of ancient texts can only become apparent if they are set alongside suitable co-texts whether from Mesopotamia from Greek and Roman writings or from other sources In addition it is clear in some of the contributions that the interplay between authors and readers is no less significant in history writing than in the production of other genres Overall the set of essays shows forcefully that history writing in antiquity as today is principally about the meaning of the past for the present only secondarily about the past for its own sake

The Oxford Companion to Christian Thought Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In The Oxford Companion to Christian Thought general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well as examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non-Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross-references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays

The Oxford Illustrated History of Christianity John McManners, 1992 Spanning 2 000 years of stirring religious cultural and political events this lavishly illustrated volume provides the most authoritative and

accessible history of Christianity ever published for the general reader Lavish illustrations genuine scholarship and crisp writing brings alive characters who for most are simply footnotes in textbooks or unworldly images in stained glass The Los Angeles Times 350 halftones 32 color plates 10 maps

Christianity in England from Roman Times to the Reformation Kenneth Hylson-Smith,1999 This final volume in the author's trilogy places the English Reformation within the context of the late medieval church and also within the framework of the European Reformation as a whole It can be treated as a separate work in its own right or can be read in conjunction with the other two volumes to give a full account and analysis of the way Christianity evolved in England from its origins up to 1558 The style adopted that of an overarching narrative is intended to attract a broad readership Every part of the book is grounded in a mass of articles theses monographs and other specialist works which have abounded in the last 50 years This means that the volume should serve as a reliable guide for those undergraduate and graduate students as well as general readers who are looking for an overview of events trends and developments in the fascinating period covered by the book
