Kambiz Maani,2016-11-28 In the complex world of today important policy and business decisions are still made with a 17th
Century reductionist mindset and approach Yet complex challenges such as climate change poverty public health security
energy futures and sustainability transcend any single science discipline or agency Rather they require integration of social
economic cultural political and environmental concerns to achieve acceptable and sustainable outcomes This entails
synthesis of diverse knowledge and perspectives in a transparent and unifying decision making process engaging
stakeholders with competing interests perspectives and agendas under uncertain and often adversarial conditions Multi
Stakeholder Decision Making for Complex Problems A Systems Thinking Approach with Cases brings together a unique self
contained volume to address this challenge The book introduces the systems approach in non technical language for multi
issue multi stakeholder decision making supplemented by numerous case studies including business economics healthcare
agriculture energy sustainability policy and planning The book provides a fresh and timely approach with practical tools for
dealing with complex challenges facing evolving global business and society today *Popular Science* ,1943-02 Popular
