**Engineering ,1907      Change Management in TVET Colleges** Kraak, Andre, Paterson, Andrew, 2016-07-25 The Technical and Vocational Education and Training TVET college environment is marked by increasingly stark juxtapositions between what needs to be achieved in the post school education sector and the increasing difficulty of current conditions The triple challenge of poverty inequality and unemployment weighs heavily on the social political and economic fabric of the country and expectations are high that the TVET colleges can make a pivotal contribution to counter these challenges Despite laudable increases in TVET enrolment the education system needs to work harder to accommodate the weight of demand for post school further education and training FET band qualifications from young people not in education employment or training At the same time it is vital to secure adequate quality in TVET programmes which depend so much on the competence and commitment of college lecturers This collection offers a set of research papers that provide new analytic and empirical material on The political economy of TVET types in different countries which by comparison illuminate the South African case A periodisation of government interventions in the TVET sector over the last three decades The unsettled state and status of TVET lecturers in relation to their job requirements and conditions of service The halting evolution of collegial relationships between college lecturers towards higher collegiality Employer expectations of college graduates and how colleges are responding and An analysis of the outcomes of a college improvement intervention in Limpopo and the Eastern Cape This book will offer valuable information and insights for decision makers as well as analysts of institutional change concerning links between education and economic growth with particular regard to TVET graduates employment rates

**ECKM2014-Proceedings of the 15th European conference on Knowledge Management** Carla Vivas, 2014-10-01 The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain This provides an illustration that in order to create new or modified knowledge practices strengthen customer relationships and thus positively influence customer satisfaction organizations must be flexible in configuring combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services Thus unlearning forgetting becomes a critical means for organizational success The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in depth understanding of learning and unlearning to better understand knowledge management Our aim is to stimulate breakthrough research streams linking learning unlearning and knowledge management How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices and processes Building upon existing work on knowledge management KM and organizational learning the conference will

promote interdisciplinary approaches from computer science and information systems business management and organization science as well as cognitive science Emphasis will be put on systematic learning from experience KM tools and KM success factors A special interest belongs to knowledge management initiatives which are lightweight i e do not place considerable additional burden on users and KM experts allow an incremental adoption i e do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics Continuing the success of the ECKM conference series since 2000 the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations **American Lumberman** ,1913 **Civil**
