Chronicle Of Higher Education Twitter:

Educating Educators with Social Media Charles Wankel,2011-01-17 Social media are increasingly popular platforms for collaboration and quick information sharing This title collects reports on how these technologies are being used to educate educators with social media in creative and effective ways It examines the processes design delivery and evaluation of instruction using social media Teaching Politics Beyond the Book Robert W. Glover, Daniel Tagliarina, 2012-11-22 To teach political issues such as political struggle justice interstate conflict etc educators rely mostly on textbooks and lectures However many other forms of narrative exist that can elevate our understanding of such issues This innovative work seeks new ways to foster learning beyond the textbook and lecture model by using creative and new media including graphic novels animated films hip hop music Twitter and more Discussing the opportunities these media offer to teach and engage students about politics the work presents concrete ways on how to use them along with teaching and assessment strategies all tested in the classroom The contributors are dedicated educators from various types of institutions whose essays span a variety of political topics and examine how non traditional texts can promote critical thinking and intellectual growth among students in colleges and universities The first of its kind to discuss a wide range of alternative texts and media the book will be a valuable resource to anyone seeking to develop innovative curricula and engage their students in the study of politics

Discussion-Based Online Teaching To Enhance Student Learning Tisha Bender, 2023-07-03 The new edition of what is now considered a classic on online learning has been expanded by about a third to reflect new opportunities offered by social media new insights and ideas derived from the author's teaching in the eight years since she wrote the first edition as well as from extensive research in the latest literature In particular Tisha Bender investigates whether the existing paradigm of teaching and learning has been changed not so much because of the advent of the Internet but because of the potential divide between the expectations and practices of students who are digital natives of the digital revolution and those of their teachers who are mostly digital immigrants She addresses the question do we need to change the way we teach in order to reach and engage digital natives fruitfully and enjoyably in their education This accessible and comprehensive book offers an engaging and practical approach to online teaching that is rooted in the author's experience and enthusiasm for creating a virtual environment that engages students and fosters their deep learning This is a book for all educators and administrators in higher education in any discipline engaged in or contemplating offering online classes that involve discussion or collaborative learning It is relevant both to faculty teaching a hybrid and face to face classes and courses conducted entirely online Nursing Education Perspectives ,2008 The Coddling of the American Mind Greg Lukianoff, Jonathan Haidt. 2018-09-04 New York Times Bestseller Finalist for the 2018 National Book Critics Circle Award in Nonfiction A New York Times Notable Book Bloomberg Best Book of 2018 One of Bill Gates s Top Five Books of All Time Their distinctive contribution to the higher education debate is to meet safetyism on its own psychological turf Lukianoff and Haidt tell us that

safetyism undermines the freedom of inquiry and speech that are indispensable to universities Jonathan Marks Commentary The remedies the book outlines should be considered on college campuses among parents of current and future students and by anyone longing for a more sane society Pittsburgh Post Gazette Something has been going wrong on many college campuses in the last few years Speakers are shouted down Students and professors say they are walking on eggshells and are afraid to speak honestly Rates of anxiety depression and suicide are rising on campus as well as nationally How did this happen First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt author of The Anxious Generation show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education What doesn t kill you makes you weaker always trust your feelings and life is a battle between good people and evil people These three Great Untruths contradict basic psychological principles about well being and ancient wisdom from many cultures Embracing these untruths and the resulting culture of safetyism interferes with young people's social emotional and intellectual development It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths They explore changes in childhood such as the rise of fearful parenting the decline of unsupervised child directed play and the new world of social media that has engulfed teenagers in the last decade They examine changes on campus including the corporatization of universities and the emergence of new ideas about identity and justice They situate the conflicts on campus within the context of America's rapidly rising political polarization and dysfunction This is a book for anyone who is confused by what is happening on college campuses today or has children or is concerned about the growing inability of Americans to live work and cooperate across party lines **Special Collections** 2.0 Beth M.
