A Textbook of Children's and Young People's Nursing - E-Book Edward Alan Glasper, James Richardson, Duncan Randall, 2021-03-19 This innovative textbook provides a concise and accessible guide for

undergraduate students specializing in children and young people's nursing in the UK and further afield. Each chapter has been fully updated to reflect current knowledge and practice. The wide range of topics covered includes all the essentials such as contemporary child health policy and legal issues, knowledge and skills for practice and caring for children with special needs. Students will learn how to recognize the deteriorating child, use procedural play and distraction and consider the mental health of children and young people. A Textbook of Children's and Young People's Nursing is written by multidisciplinary experts rooted in child-centred healthcare within a family context and draws upon best contemporary practice. It is an invaluable resource that will help nursing students provide effective evidence-based care. Key points, summary boxes and clearly defined aims, objectives and learning outcomes to support learning. Conversation boxes to enliven the text. Patient scenarios to relate theory to practice. New chapters on skin health and the use of therapeutic play. Suggestions for seminar discussion topics to help teachers. Resource lists and online resources for further study or research. Online slides to complement chapters within book.

Care Planning Barrett David, Benita Wilson, Andrea Woollands, David Barrett, 2018-08-15. This clear and intuitive introduction to care planning for nurses explains the benefits of holistic individualised care planning from a professional and clinical perspective. Using the ASPIRE model, it guides the reader step by step through a problem-solving approach to care from assessing patients and identifying their needs to planning goals and interventions and evaluating progress. The book is structured to explain the theory of care planning in relation to a number of common nursing models and then show how the theory can best be put into practice. It draws on recent research to show how nurses can develop individualised care plans from scratch or use and adapt a range of off-the-shelf tools. It is written in a clear, succinct and down-to-earth writing style which will put students immediately at their ease and is rich with pedagogic features including Stop and think boxes to check understanding, boxed Practice examples to illustrate points made, Research summary boxes to highlight relevant and important studies, What have you learnt so far features to recap on key points of discussion, mini care plans, regular activities to encourage the reader to apply what they have learnt to particular practice scenarios. This is a go-to text for all pre-registration nursing students taking courses on the theory and practice of effective healthcare delivery.

Early Childhood Studies Jane Johnston, Lindy Nahmad-Williams, Ruby Oates, Val Wood, 2018-02-16. This fully updated new edition offers a comprehensive, accessible yet rigorous introduction to the study of Early Childhood that will add value to any Early Childhood Studies course at both foundation and degree level. Addressing both care and education in the Early Years, the book considers a range of multi-disciplinary aspects of Early Childhood including health, social, educational, psychological and sociological perspectives. Early Childhood Studies engages the reader by providing real-world examples that underpin theoretical perspectives and bring examples to life while encouraging practitioners to engage in reflective practice by considering their own similar experiences. Key features include Engaging activities and case studies that bring theory to life, Cutting edge research, Practical tasks and advice with points for further reading. End of chapter
