## Dgf C Vi:

**Processing Contaminants in Edible Oils**, 2015-08-15 This book discusses the current research on monochloropropanediol MCPD and glycidyl esters in edible oils These potentially harmful contaminants are formed during the industrial processing of food oils during deodorization The mechanisms of formation for these contaminants as well as research identifying possible precursor molecules are reviewed Strategies which have been used successfully to decrease the concentrations of these contaminants in edible oils are discussed including the removal of precursor molecules before processing modifications of deodorization protocol and approaches for the removal of these contaminants after the completion of processing Analytical strategies for accurate detection and quantitation of MCPD and glycidyl esters are covered along with current information on their toxicological properties This book serves as a single point of reference for the significant research related to these contaminants Details the mechanisms of formation for these contaminants and research identifying possible precursor molecules Presents successful strategies to decrease the concentrations of these contaminants in edible oils Includes the analytical strategies for accurate detection and quantitation of the contaminants along with their toxicological properties **Biological Interrelations and Nutrition** J. C. Somogyi, 1971-03-30

Mitigating Contamination from Food Processing Catherine S Birch, Graham A Bonwick, 2019-11-01 Methods for identification and measurement of existing and newly discovered contaminants are required especially those that are cheap simple and rapid so that testing may be more frequent within the food supply chain This book examines the formation of toxic compounds during the processing of food and strategies to mitigate their creation Modification of process conditions can reduce the health risks posed by these compounds to consumers This new volume will update knowledge on current methods for mitigation of these process contaminants and is aimed at industrialists in food processing academic researchers and graduate students studying food science and technology or food engineering **Report No. FHWA-RD.** United States. Federal Highway Administration. Offices of Research and Development, 1977 **Laboratory Handbook for Oil and Fat Analysts** L. V.
