This first Asia Pacific edition of Reilly Brown s Investment Analysis and Portfolio Management builds on the authors strong reputations for combining solid theory with practical application and has been developed especially for courses across the Australia New Zealand and Asia Pacific regions The real world illustrations and hands on activities enhance an already rigorous empirical approach to topics such as investment instruments capital markets behavioural finance hedge funds and international investment The text also emphasises how investment practice and theory are influenced by globalisation

Business analysis and valuation Paul M. Healy and Erik Peek Krishna G. Palepu,2010 The new edition of Business Analysis and Valuation builds on the strong success of the first IFRS edition providing students with the knowledge of how to

use financial statement information to assess a firm's financial performance value and creditworthiness. The text is primarily aimed at Masters and upper level undergraduate programs in business and builds a bridge between accounting and finance therefore making it accessible to both finance and accounting students. The distinctive strengths of this text include a large number of real world cases used to illustrate theory, the step by step analysis methodology and the extensive discussion of strategy analysis. The presentation of material is based on business analysis before financial analysis which ensures that financial analysis is approached in a real world manner and is driven by strategy. The pedagogy is geared toward helping students to develop strong practical skills using current applications and supported by the extra interactive material on the companion website. This new edition retains some of the most popular Harvard cases from the previous edition alongside new Harvard cases and a range of long and short cases on European and international companies written by the adapting author Erik Peek.

How to Get the Financing for Your New Small Business Sharon L. Fullen, 2006. While poor management is cited most frequently as the reason small businesses fail, inadequate or ill timed financing is a close second. Whether you're starting a business or expanding one, sufficient ready capital is essential. This new book will provide you with a road map to secure the financing. The book goes into traditional financing methods and assists the reader in setting up proper financial statements and a proper business plan. It details the differences between debt and equity financing and how and why to use each. Valuation techniques are explained for determining what your business is truly worth. However, the book's real strength is in explaining alternative and creative methods of financing such as SBA financing, angel investors, IPOs, limited public offerings, and venture capital. Numerous real
