Adhesion Aspects of Polymeric Coatings K.L. Mittal, 2012-12-06 This volume chronicles the proceedings of the Symposium on Adhesion Aspects of Polymeric Coatings held under the auspices of the Electrochemical Society in Minneapolis MN May 10 15 1981 This event was cosponsored by the Dielectric and Insulation and Electrothermics and Metallurgy Divisions Polymeric coatings are used for a number of purposes e g decorative protective functional as dielectrics or insulators and a special application of polymeric organic coatings is their use as lithographic materials for making integrated circuit elements Irrespective of the purpose of the coating it must adhere well to the underlying substrate So the need to understand the factors which influence adhesion of organic coatings and the ways to attain desired adhesion is quite manifest This Symposium was designed to bring together scientists and technologists

interested in the adhesion aspects of polymeric coatings to provide a forum for discussion of latest findings and to provide an opportunity for cross pollination of ideas The technical program contained a total of 46 papers by authors from various corners of the world The program comprised both invited overviews and contributed original research papers as this blend is the best way to present the state of knowledge of a topic The invited speakers were selected so as to represent widely differing disciplines and interests and they hailed from various academic and industrial research laboratories
