Our Ghosts Were Once People Bongani Kona, 2021-08-19 I would get out of the car at every shopping centre and want to ask the stranger walking by with their trolley Why are you still shopping Someone I love has died Dela Gwala Death is a fact of life but the experience of grief is unique to each of us This timely collection brings together a range of voices to offer reflections on death and dying from individual losses to large scale catastrophes Karin Schimke revisits her troubled relationship with her late father a Second World War survivor whose brain had been broken by violence Madeleine Fullard the head of South Africa's Missing Persons Task Team draws us into the search for activists who were disappeared or went missing in political circumstances between 1960 and 1994 Caine Prize winner Lidudumalingani remembers his childhood in a small village in the Eastern Cape and how his mother always listened to death notices read over the radio as a way of bearing witness to the grief of strangers The other contributors in this poignant and thought provoking anthology turn their minds to subjects as varied as the ritual of washing the body of the deceased before burial the ethics of killing small animals and the extinction of humankind In a time of relentless grief *Our Ghosts Were Once People* reminds us that one of the small consolations of literature is that all sorrows can be borne Sindiswa Busuku Lucienne Bestall Khadija Patel Shrikant Peters Sudirman Adi Makmur Paula Ihozo Akugizibwe Rofhiwa Maneta Madeleine Fullard Musawenkosi Khanyile Simone Haysom Thato Monare Angifi Dladla Nick Mulgrew Tariq Hoosen Catherine Boulle Tatamkhulu Afrika Dela Gwala Anna Hartford Gabeba Baderoon Barry Christianson Vonani Bila Khanya Mtshali Robert Berold *Promoting Cardiovascular Health in the Developing World* Institute of Medicine, Board on Global Health, Committee on Preventing the Global Epidemic of Cardiovascular Disease: Meeting the Challenges in Developing Countries, 2010-07-29 Cardiovascular disease CVD once thought to be confined primarily to industrialized nations has emerged as a major health threat in developing countries Cardiovascular disease now accounts for nearly 30 percent of deaths in low and middle income countries each year and is accompanied by significant economic repercussions Yet most governments global health institutions and development agencies have largely overlooked CVD as they have invested in health in developing countries Recognizing the gap between the compelling evidence of the global CVD burden and the investment needed to prevent and control CVD the National Heart Lung and Blood Institute NHLBI turned to the IOM for advice on how to catalyze change In this report the IOM recommends that the NHLBI development agencies nongovernmental organizations and governments work toward two essential goals creating environments that promote heart healthy lifestyle choices and help reduce the risk of chronic diseases and building public health infrastructure and health systems with the capacity to implement programs that will effectively detect and reduce risk and manage CVD To meet these goals the IOM recommends several steps including improving cooperation and collaboration implementing effective and feasible strategies and informing efforts through research and health surveillance Without better efforts to promote cardiovascular health global health as a whole will be undermined **God's Waiting**
