Volume 1 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz, 2021-09-20 This newly translated volume of the *Collected Works of Marie-Louise von Franz* one of the most renowned authorities on fairytales presents a systematic and wide ranging approach. Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life. She was one of Analytical Psychology's most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales. Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life's events. The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales. While peregrinations of fairytale motifs occur, the common root of fairytales is more archetypal than geographic. A striking feature of fairytales is that a sense of space, time and causality is absent. This situates them in a magical realm, a land of the soul where the most interesting things happen in the center of places like Heaven, mountains, lakes and wells. At the age of eighteen, Marie-Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower. She immediately recognized that there exist two levels of reality: one outer and the other inner. Within months she had enrolled at the University of Zurich and began attending Jung's lectures at the Eidgenössische Technische Hochschule or the Swiss Federal Institute of Technology. Less than a decade after meeting Jung, von Franz had completed her doctorate in classical philology and begun seeing her first analysands. She was a prolific writer, a dedicated teacher and lecturer, and was possessed of a far reaching and often non-discriminating Eros that accepted everyone seeking help. Alfred Ribi MD in *Fountain of the Love of Wisdom* Chiron 2006.

Book of Sun and Moon (I Ching) Volume II Stuart Olson, 2014-11-18 The books in this two volume series present the most important tools and information on how to utilize the *Book of Changes* *I Ching*. The *Book of Sun and Moon* an alternative though accurate translation for the title of the *I Ching* is both a book of divination and calculation. Its use in divination means to apply intuition concerning the oracle of the hexagrams, the sixty-four images of broken and unbroken Yin and Yang lines. Its ability to calculate and determine possible outcomes for any situation involves examining the logical correlations associated with each of the hexagrams and what images they change into and head toward. Using the *Book of Sun and Moon* is like being a detective or tracker. The images are the clues and tracks and a good detective or tracker needs not only tools of deduction and observation but also a strong sense of intuition. Hence the *Book of Sun and Moon* provides the main tools for both. Some questions put to the *Book of Sun and Moon* may only seem to need an understanding of the oracle portion while others may only seem to require the use of logic and calculation. Without applying both intuition and logic however you are only receiving half the picture and limiting the amount of information the *Book of*

Sun and Moon can provide Volume I contains background historical information and explanations of the I Ching's construction and uses for divination and calculation Volume II contains the translations of the original Book of Sun and Moon along with specific correlations for the hexagrams and trigrams for interpretation as well as Stuart Alve Olson's commentaries derived from various Chinese and English sources These new editions of the Book of Sun and Moon provide a distinctly Daoist perspective on the work which sets them apart from the majority of other translations of the I Ching that contain commentaries based on Confucian ideals and philosophy

The Holy Spirit and Ch'i (Qi) Koo Dong Yun, 2012-03-02 This book articulates a contextual pneumatology from a perspective of the Eastern idea of ch'i in Korean Rather than understanding the Spirit from a Westernized philosophical perspective this book utilizes East Asian categories rooted in the I Ching and Asian religions in dialogue with such prominent Western theologians as Barth Pannenberg Moltmann and Harvey Cox The result is an exciting interaction between the Bible traditions of the West and experiences of the Spirit rooted in East Asia Yun argues that the formal dimension of the Spirit sangjeok is present and active in all cultures and religions while the material dimension of the Spirit muljeok is categorically revealed and embodied through the life of Jesus Christ the event of Pentecost and Charisms given to the church In making his case he mediates a creative balance between countercultural and exclusivist models on the one hand and pluralistic and anthropocentric models on the other
