**The Publishers' Trade List Annual**, 1981 *Learning and Soft Computing* Vojislav Kecman, 2001 This textbook provides a thorough introduction to the field of learning from experimental data and soft computing Support vector machines SVM and neural networks NN are the mathematical structures or models that underlie learning while fuzzy logic systems FLS enable us to embed structured human knowledge into workable algorithms The book assumes that it is not only useful but necessary to treat SVM NN and FLS as parts of a connected whole Throughout the theory and algorithms are illustrated by practical examples as well as by problem sets and simulated experiments This approach enables the reader to develop SVM NN and FLS in addition to understanding them The book also presents three case studies on NN based control financial time series analysis and computer graphics A solutions manual and all of the MATLAB programs needed for the simulated experiments are available

[Readings in Accounting for Management Control](#) David Otley and Kenneth Merchant Clive Emmanuel, 2013-12-19 This collection contains the main journal articles necessary to complement and support the established second edition of Accounting for Management Control The success of the text stems from the authors commitment to examining management accounting in an organizational and behavioural context Only in this way can the contribution to the management control system be evaluated The articles contained in this volume follow

the structure and content of the main book providing deeper insights into those fundamental issues of accounting control systems design and indicating the direction of future developments in research The collection contains articles with a variety of perspectives and range from as early as the 1950s through to the present The inclusion of all these papers in one volume gives the student easier access to the body of work upon which the main text is based A teacher's manual to be used in conjunction with the main text is also available This book should be of interest to senior undergraduate students of accounting and finance and university and polytechnic libraries

**Asianfail** Eleanor Ty, 2017-03-21 Eleanor Ty's bold exploration of literature plays and film reveals how young Asian Americans and Asian Canadians have struggled with the ethos of self sacrifice preached by their parents This new generation's narratives focus on protagonists disenchanted with their daily lives Many are depressed Some are haunted by childhood memories of war trauma and refugee camps Rejecting an obsession with professional status and money they seek fulfillment by prioritizing relationships personal growth and cultural success As Ty shows these storytellers have done more than reject a narrowly defined road to happiness They have rejected neoliberal capitalism itself In so doing they demand that the rest of us reconsider our outmoded ideas about the so called model minority
