McDevitt, 2004-04-16 As Britain's great power status came to be increasingly challenged in the decades before the First World War one by product of the resultant uncertainty was the weakening of the Victorian middle class consensus of what constituted ideal manhood Britain's empire was not only the source of wealth and power but it simultaneously provided alternative models of masculinity and nationhood Consequently the empire and the commonwealth played an important role in defining imperial gender relations in both Britain and in the colonies and dominions May the Best Man Win investigates the continual re assessment and reassertion of various masculine ideals associated with sport in the British empire between 1880 and 1935 **Subject Index of the Modern Works Added to the Library of the British Museum** British Museum, British Museum. Dept. of Printed Books, 1897 **Bound by Convention** David Owens, 2022-08-04 How should we assess the social structures that govern human conduct and settle whether we are bound by their rules One approach is to ask whether those social arrangements e g our family structures reflect pre conventional facts about our nature If they do compliance will serve our interests because these rules are not just conventions Another approach is to ask whether following a convention has desirable consequences For example the rule which makes the dollar bill legal tender is a convention and the great

usefulness of having a medium of exchange ensures that we should follow that convention by accepting paper money in return for things of real value This work argues that being bound by a convention can also be valuable for its own sake People need meaning in their lives and conventions infuse acts and attitudes with normative significance rendering them right or wrong appropriate or inappropriate required or forbidden Such rules bind us not just in virtue of their usefulness but also because their absence would impoverish our social world Appreciating this point is essential to a proper understanding of our cultures of neighbourliness and hospitality family structures systems of property rights conventions around speech the norms governing how we deport ourselves in public and even the rules of a game Pay Up and Play the Game Wray Vamplew,2004-01-29 This 1988 book presents an analysis of the emergence of mass spectator sport during the years prior to World War I
