Deconstructing History Alun Munslow, 2006 Surveying the latest research this welcome second edition of Alun Munslow's successful *Deconstructing History* provides an excellent introduction to the debates and issues of postmodernist history. This new edition has been updated and revised and along with the original discussion material and topics now assesses the claims of history as a form of truthful explanation, discusses the limits of conventional historical thinking and practice, and the responses of the new empiricists to the book's central arguments. Examines the arrival of experimental history and its implications, clarifies the utility of addressing Michael Foucault and Hayden White, and strengthens the analysis of Frank R. Ankersmit's recent work. Along with an updated glossary and a revised bibliography, this second edition will not only live up to its predecessor's reputation but will surpass it as the most essential student resource for studying history and its practice. Critical Theory and Practice Keith Green, 1996

Critical Essays on Canadian Literature K. Balachandran, 2002-12-31 *Challenging Theory: Discipline After Deconstruction* Catherine Burgass, 2019-01-04 First published in 1999, this volume perceives that English literature is under threat as an academic discipline. In *Challenging Theory*, Catherine Burgass warns against the recent trend towards the conflation of literature teaching with cultural studies in British and American universities. Focusing on theory of deconstruction as developed by Jacques Derrida in the 1960s, the book redresses some common misinterpretations of Derrida's work relating to the status of metaphysical oppositions. Part One discusses textual differences and the ways in which these may dissolve and reform according to different cultural contexts. The practical issues associated with teaching literature and literary theory in universities are examined in Part Two, while Part Three highlights some of the more invidious claims of literary theorists and questions the value of metaphysical analysis as a tool for political critique. *Challenging Theory* tackles an important debate that lies at the heart of humanities teaching. It illuminates the impact on academia of the work of critical theorists over the last thirty years and provides a platform for future reassessment of the relationships between literature, philosophy, and theory. **The Postcolonial**

Biblical Reader R. S. Sugirtharajah, 2008-04-15 This wide-ranging Reader provides a comprehensive survey of the interaction between postcolonial criticism and biblical studies. Examines how various empires such as the Persian and Roman affected biblical narratives. Demonstrates how different biblical writers such as Paul, Matthew, and Mark handled the challenges of empire. Includes examples of the practical application of postcolonial criticism to biblical texts. Considers contemporary issues such as diaspora, race, representation, and territory. Editorial commentary draws out the key points to be made and creates a coherent narrative. *Challenging Theory* Catherine Burgass, 1999 The author addresses the influence of poststructuralism on literary studies in Britain and America, focusing on the theory of deconstruction as developed by Jacques Derrida. The book redresses common misinterpretations and assesses arguments for the collapse of disciplinary boundaries. Whitaker's Books in Print, 1998 **Penguin Student Edition** *Wide Sargasso Sea* Jean Rhys, 2001-05
