Great Books Written by Africans across the Academic Disciplines Emmanuel D. Babatunde,Abdul Karim Bangura,2022-07-04 This volume is the first text to provide a comprehensive account of the great books across the academic disciplines written by Africans born in the continent and those who became naturalized citizens of African countries These great books are those that have had a powerful important or affecting influence on the author of a chapter in this book as an individual and on society The books included here are mostly of the storytelling type and thus not representative of most of the academic disciplines This volume allows each contributor to write a chapter on a discipline showcasing five great books written by African authors Each selection is appraised and suggestions made by other experts in a discipline while every chapter entails an introduction to the topic a conceptual discussion of the discipline a book by book review of the five books and a conclusion and recommendations for research using the selected books

A Textbook of Economics for Cameroon G.C.E. Fritz Ndiva Mbua,1989

Developing a Sustainable Economy in Cameroon Ajab Amin,2008-05-15 Developing a Sustainable Economy in Cameroon is an ambitious effort as the authors try to set a blue print for Cameroon s economy In the 1980s facing economic crisis and as dictated by the structural adjustment programme Cameroon sharply cut public investment expenditures before later cutting government consumption which were followed by privatisation liquidation of public companies and reduction in the size of the public sector All these measures are believed to have had devastating effects on the economy Given the performance of the economy so far the authors suggest that much more effort with a strong commitment of the main stakeholders is required to guarantee sustainable economic development in Cameroon Truly very few countries in Africa possess such enormous human and natural resources as Cameroon does This volume brings out the challenges Cameroon faces in its quest for development as well as for designing appropriate strategies for addressing those development challenges

Economics and Ecology of Diversification François Ruf,Götz Schroth,2015-09-23 The monoculture systems that have been encouraged by governments since the 1960s have led

to major socio economic and environmental crises Now the diversification of tree crop systems is advancing throughout the tropics Why and when does diversification take place What categories of farmers diversify What obstacles do they have to overcome and how do public and private policies interfere in this process How do land use systems and landscapes evolve as a result of this diversification According to the authors of this volume diversification is certainly a response to market risks but also to the depletion of environmental resources Ecological changes such as declining soil fertility and increasing pressure from pests diseases and weeds intensify at the end of monoculture cycles driving crop change and diversification of farming systems Through 15 case studies from Africa Latin America Asia and the Pacific the authors provide us with in depth insights into the economy and ecology of family agriculture and its recent developments Leadership in a Globalized World Frannie Léautier,2014-10-07 This book investigates key issues facing leaders in increasingly complex decision making environments as a result of globalization It presents a synthesis and interpretation of academic research in multiple disciplines and integrates it into a practical approach that is readily useable by leaders in government corporations and civil society The Politics of Economic Regionalism David Francis,2017-11-01 This title was first published in 2001 The primary objective of this book is to provide an analytical understanding of the nature dynamics and complexity of the politics of economic regionalism through the prism of Sierra Leone in the Economic Community of West African States ECOWAS The book also discusses the following issues the evolution of economic regionalism in West Africa and the conceptual framework for analysis the expansion of the economic regionalism developments within the West Africa sub region with that of the transformation of the global economy and international political system political economic and security developments within ECOWAS and the civil war in Sierra Leone **Structural Change in Africa** Carlos Lopes,George Kararach,2019-06-25 Debates on African development continue to downplay the achievement of the continent economic achievements are diminished and the perception of a conflict prone continent continues Many of the policy prescriptions externally imposed on African countries have done little to transform the continent largely because they have been conceived and applied without context Using literature from diverse origins this book expands our knowledge about Africa and makes practical suggestions as to how successful development in a complex yet dynamic continent can be achieved Widening the policy dialogue and providing alternative thinking on the key elements and full extent of opportunities and challenges towards achieving the socio economic transformation of Africa the book moves the debate from the rhetoric to reality As a considered reflection on the Africa s transformation narrative it outlines the practical pathways necessary for Africa s sustainable development providing policy makers and researchers with tested solutions It will be of interest to all scholars students and policy professionals working in African development public policy international political economy economic policy and politics *World Agricultural Economics and Rural Sociology Abstracts* ,2000 **Recent Books on International Relations** ,1967 **African Economic History** ,1993 The African Book Publishing Record ,2005 **Britannica Book of the**
