

Brave New World
Semester Two Research Paper

Theme: Aldous Huxley and Prophecies of the 20th Century

Topics: *Brave New World*, published in 1931, was a warning and a prophecy of a dystopia to come. To that extent it is a philosophical novel, a novel of ideas, with allusions to many thinkers and social practices that led to some of the most inspiring and, as well, most horrible consequences in the past century. From your 2012 vantage point, look back at the 20th Century from any of the specific perspectives below, and write a research paper that addresses Huxley's concerns. There are many directions you can take, and below are some suggestions.

Note: the central purpose of these research papers is to evaluate Huxley's broader vision in *Brave New World*, so all of your research should be pointed toward the following questions:

- To what extent have his prophecies come true or not (matters of fact)
- To what extent have we reason to celebrate or lament the direction of the world in since 1900?
- To what extent have his ideas helped or hurt us, historically, in the past 80 years?

Below are topics and annotations that can lead you to making a decision about what you want to research.

1. Huxley's Marxist/Statist Critique
 - a. Research documents central to Marxist/Statist theory, the rise (and fall) of Marxism/Socialism in the world. Evaluate Huxley's critique of Marxism/Communism; and in that critique note the rise and fall of the Soviet Union, and the rise of European and American socialism to the present.
2. Lenin's *Brave New World*. Research Leninist theory and how it plays into Huxley's dystopian vision. Read *The State and Revolution*, and evaluate it in light of Soviet history.
3. Huxley's Consumerist Critique
 - a. Evaluate the rise of consumerism in American society and the role played by state-controlled business. Research his concerns with the dangers of Madison Avenue advertising and "subliminal persuasion" employed by advertisers to get people to consume products. Research the science of advertising as what he calls a subtle totalitarian tool that is one of the enemies of our freedom.
4. Huxley's Reproductive Technology Critique
 - a. Evaluate his warnings specific to reproductive technology in light of modern moral issues such as cloning, in vitro fertilization, surrogate motherhood, sperm

Technology as a blessing or curse in Aldous Huxley's "Brave New World". The importance of individuality and freedom ,2020-10-06 Pre University Paper from the year 2013 in the subject English Language and Literature Studies Literature grade 14 language English abstract This scientific research paper evaluates the importance of freedom and individuality by reference to Aldous Huxley's novel Brave New World 1932 I chose this topic because of its high complexity and the fact that technological progress plays a continuously rising role in our daily routine to make our lives easier or more comfortable By writing about the inhumane circumstances the inhabitants of the Brave New World live in without realizing their loss of individuality or freedom I want to point out that technological progress should always be only a human's tool instead of his suppressor The topic itself is very topical because there are numerous controversies concerning technology especially in the field of agricultural genetic engineering or even more controversial the use of technology in relation to human beings such as cloning and stem cell research The novel contains a great deal of hidden messages and allusions which is the reason why I would like to analyse the novel profoundly and convince the reader of the following pages of my hypothesis that humanity is more crucial for progress than technology This research paper was a challenge since it has been the first scientific work I have written and the fact that I have chosen a complex and demanding topic Aldous Huxley's dystopian science fiction novel Brave New World which was published in 1932 in London covers the issue of a dehumanized society in which individuality freedom and contiguous for us self-evident morals are taken in exchange for Community Identity and Stability It takes place in the future in the year A F Annum Ford 632 which equals the year 2540 in our calendar
