

Christopher Columbus

Christopher Columbus was an Italian trader, explorer, and navigator. He was born in Genoa, Italy, in the year 1451. "Christopher Columbus" is the English version of Columbus's name. His real name in Italian was Cristoforo Colombo.

In 1492 Columbus landed on an island of the Bahamas, the first European to do so. His initial goal was to find a quicker route to Asia from Europe. He is credited with the discovery of the New World because his voyage started the era of European colonialism in the Americas. While Leif Erikson was the first European to land in present-day Canada it was not well documented and did not lead to the later contact between Europe and the New World. Columbus discovered America in the sense that he was the first person to create repeated exploration and contact with the New World.

Many people in Western Europe wanted to find a shorter way to get to Asia. Columbus thought he could get to Asia by sailing west. He did not know about the Western Hemisphere, so he did not realize it would block him from getting to Asia.

The New World

is a name used for the Western Hemisphere. It specifically refers to the Americas. It can also refer to certain Atlantic and Pacific islands (like Bermuda) and sometimes Oceania, (Australasia). The name started in the early 16th century, shortly after America was colonized. The people of the European Middle Ages thought the world was only Europe, Asia, and Africa. These continents are called the Old World.

However, Columbus did not have enough money to pay for this voyage on his own. After defeating the Emirate of Granada, the rulers of Spain, Ferdinand II and Isabella I of Castile, agreed to pay for the voyage. He promised to bring back gold and spices for them.

In August 1492, Columbus and his sailors left Spain in three ships: the Santa María (the Holy Mary), the Pinta (the Painted), and the Santa Clara (nicknamed the Niña: the Little Girl).
