

Geosystems

The background of the book cover is a photograph of a mountainous landscape. A winding road or path is visible, leading through a valley. The mountains are rocky and have some snow or light-colored patches. The sky is blue with some clouds. The overall scene is a natural, geological landscape.

attained alarming levels with pollutants from industrial and military sources becoming a threat to life wherever it exists on this Earth At the end of the 20th century states started projects for pollution control and remediation major Universities changed their programs to accommodate environmental studies at central positions in their curricula and nations forgot their differences and came together to sign the Chemical Weapons Convention CWC and other treaties allowing pollution control on world wide scale
