Peters** Aristoteles, 1884 **Aquinas on Mind** Sir Anthony Kenny, Anthony Kenny, 2013-04-03 This book shows how the mature writings of Thomas Aquinas though written in the thirteenth century have much to offer the human mind and the relationship between intellect and will body and soul **Slavery and the Romantic Imagination** Debbie Lee, 2017-09-14 Selected by Choice magazine as an Outstanding Academic Title The Romantic movement had profound social implications for nineteenth century British culture Among the most significant Debbie Lee contends was the change it wrought to insular Britons ability to distance themselves from the brutalities of chattel slavery In the broadest sense she asks what the relationship is between the artist and the most hideous crimes of his or her era In dealing with the Romantic period this question becomes more specific what is the relationship between the nation's greatest writers and the epic violence of slavery In answer Slavery and the Romantic Imagination provides a fully historicized and theorized account of the intimate relationship between slavery African exploration the Romantic imagination and the literary works produced by this conjunction Though the topics of race slavery exploration and empire have come to shape literary criticism and cultural studies over the past two decades slavery has surprisingly not been widely examined in the most iconic literary texts of nineteenth century Britain even though emancipation efforts coincide almost exactly with the Romantic movement This study opens up new perspectives on Blake Wordsworth Coleridge Percy Bysshe Shelley Mary Shelley Keats and Mary Prince by setting their works in the context of political writings antislavery literature medicinal tracts travel writings cartography ethnographic treatises parliamentary records philosophical papers and iconography **The Nicomachean Ethics of Aristotle** Aristotle, 1898 **The metaphysical system of Hobbes in twelve chapters** Thomas Hobbes, 1905 **Agencies and methods** National Society for the Study of Education, Charles R. Angels occupy a significant space in contemporary popular spirituality Yet today more than ever the belief in the existence of intermediary spirits between the human and divine realms needs to be evangelized and Christianized Angels and Demons offers a detailed synthesis of the givens of the Christian tradition concerning the angels and demons as systematized in its essential principles by St Thomas Aquinas Certainly the doctrine of angels and demons is not at the heart of Christian faith but its place is far from negligible On the one hand as part of faith seeking understanding angelology has been and can continue to be a source of enrichment for philosophy Thus reflection on the ontological constitution of the angel on the modes of angelic knowledge and on the nature of the sin of Satan can engage and shed light on the most fundamental areas of metaphysics epistemology and ethics On the other hand angelology insofar as it is inseparable from the ensemble of the Christian mystery from the doctrine of creation to the Christian understanding of the spiritual life can be envisioned from an original and fruitful perspective
