

INSTALLATION GUIDE

Decking Installation

Before Installation

- Prepare ZHUART decking boards along with the necessary accessories, including stainless steel fasteners and screws.

Substructure

- Use durable, rot-resistant materials such as galvanized steel for the joists.
- For decking boards with a length of 1850mm, space the joists at 462.5mm intervals (center to center). Ensure the ends of each decking board are properly supported on the joists.

Installation Using Hidden Clip Fasteners

- Use an L-fastener to secure the outer edge of the first decking board to the joist. Tap the decking firmly into the clip fastener using a rubber mallet.
- Position a U-fastener (or I-fastener) into the edge groove of the installed decking board. Tighten the screw in the fastener to secure it to the joist.
- Slide the next decking board onto the exposed fastener. Use a rubber mallet to tap the board into place.
