Explaining As you read, use a diagram like the one below to help you study.

The year 1789 witnessed two far-reaching events: the beginning of a new United States of America and the beginning of the French Revolution. Compared with the American Revolution, the French Revolution was more complex and more radical. The French Revolution established both a new political order and a new social order. For that reason, it is considered a turning point in European history.

Background to the Revolution

MAIN IDEA The Third Estate, the vast majority of the French people, was heavily taxed and discontented.

HISTORY & YOU What if you had no say in family concerns despite doing all the household chores? Learn how the French people reacted to having no say in their government.

French society had changed little since medieval times. Feudalism established the privileges and obligations of the three main social classes. Although there were clergy and wealthy landowners in the American colonies, there were no laws giving them special status, unlike the class system in France. This social injustice caused unrest in eighteenth-century France.

France's Three Estates

Since the Middle Ages, France's population had been divided by law into one of three status groups, or **estates**. The First Estate consisted of the clergy, the Second Estate the nobles, and the Third Estate everyone else. Thus the Third Estate included anyone from the lowliest peasant to the wealthiest merchant.

The First Estate, or clergy, numbered about 130,000 out of a total population of 27 million and owned about 10 percent of the land. The clergy were radically divided. The higher clergy—cardinals, bishops, and heads of monasteries—were from noble families and shared their outlook and interests. The parish priests were often poor and from the class of commoners.

The Second Estate, or nobility, numbered about 350,000 and owned about 25 to 30 percent of the land. They played a crucial role in society in the 1700s. They held leading positions in the government, in the military, in the law courts, and in the Roman Catholic Church. Despite controlling most of the wealth of the kingdom, neither the clergy nor the nobles had to pay the **taille** (TAH•yuh), France's chief tax.
