The Global Economic System George Chacko, Carolyn L. Evans, Hans Gunawan, Anders Sjöman, 2011-06-08 Written for financial professionals the authors thoroughly explain the modern global credit system the roles of banks hedge funds insurers central banks mortgage markets and other participants and the credit related instruments they rely on In particular the authors illuminate the crucial

importance of liquidity and show why liquidity failures have been the key cause of all major market crashes for the past several decades The Global Financial System thoroughly examines economic environments in which slow de leveraging leads to prolonged sluggish growth and compares today s environment to other periods of deleveraging such as the Great Depression and the Japanese economic meltdown of the 90s and 00s It predicts potential pathways for the current crisis and offers essential guidance to both policymakers and investment decision makers *U.S. Bank Deregulation in Historical Perspective* Charles W. Calomiris,2006-11-02 This book shows how deregulation is transforming the size structure and geographic range of U S banks the scope of banking services and the nature of bank customer relationships Over the past two decades the characteristics that had made American banks different from other banks throughout the world a fragmented geographical structure of the industry which restricted the scale of banks and their ability to compete with one another and strict limits on the kinds of products and services commercial banks could offer virtually have been eliminated Understanding the origins and persistence of the unique banking regulations that defined U S banking for over a century lends an important perspective on the economic and political causes and consequences of the current process of deregulation
