

CHAPTER 3: LEARNING TO DRIVE

This chapter provides information that will help you become a safe driver. It covers these topics:

- Choosing Safety First
- Driver Factors
- Everyday Driving Skills
- Special Circumstances and Emergencies

CHOOSING SAFETY FIRST

You have important choices to make – sometimes even before you start your vehicle – that will affect your safety when you are behind the wheel. Begin by making sure you and your vehicle are “fit to drive.”

VEHICLE CHECKS: PREPARING TO DRIVE

1. **Adjust the driver's seat** – You must be able to easily reach the pedals and other controls and have a clear view out the windshield. Your owner's manual provides information about how to adjust your vehicle's equipment.
2. **Fasten your seat belt** – Fasten both your lap and shoulder belts on every trip. Pay attention to the information about Pennsylvania's seat belt law, child restraint law and airbag safety information found in Chapter 5.

WEARING YOUR SEAT BELT
is the single most effective
thing you can do to reduce
the risk of death or injury!

DID YOU KNOW?

In 2011, 78 percent of people involved in crashes in Pennsylvania were wearing seat belts. Drivers, ages 16 to 24, had the highest number of unbuckled injuries and fatalities of any age group and the lowest seat belt use.

3. **Secure loose items in the passenger compartment** – In a crash, loose items in your vehicle become projectiles that continue to travel the same speed your vehicle was moving before the impact. Put heavier objects, such as backpacks, luggage and tools in your trunk, whenever possible, or secure them with the vehicle's seat belts. Never store items on the rear window deck.
4. **Adjust the rearview and side mirrors** – To remove blind spots around your vehicle, the rearview and side mirrors may have to be adjusted differently for each driver. The rearview mirror should be set so you can see the traffic directly behind your vehicle. The side mirror(s) should be set so when you lean left/right you can just barely see the side of your vehicle. Set the mirrors after you adjust your seat.
Note: It is against the law to have any object or material hanging from the rearview mirror while moving. You may not hang, place or attach anything to the rearview mirror that might block or impair vision through the front windshield. Tags, permits and placards may only be attached to the rearview mirror when the vehicle is parked.
5. **Windshield** – It is against the law to place anything on the front windshield that blocks a driver's view of the roadway.
6. **Adjust ventilation** – You should maintain a constant supply of fresh air in your vehicle. This helps you stay alert and guards against carbon monoxide (exhaust gas) poisoning when you drive.
7. **Adjust head restraints** – A head restraint that properly cushions the back of your head can prevent or reduce the severity of neck injuries in a crash. Adjust your head restraint so the top of the head restraint is at least as high as the top of your ears. Check your owner's manual for instructions.
8. **Wear your prescription glasses/contact lenses** – If you normally wear corrective lenses, always wear them while driving. Do not wear sunglasses or tinted contact lenses at night.
9. **Lock your doors** – Locking your doors and wearing your seat belt will help to ensure you will not be thrown from your vehicle in a crash. Being thrown from a vehicle increases your chances of death by 75 percent. It will also reduce the likelihood of being carjacked or otherwise victimized when you stop at an intersection or pull into a parking lot.
