the economic impact of the British defence effort during the immediate post war period this book convincingly suggests that British foreign policy makers retained a large defence budget to offset a sense of increased national vulnerability brought about by a reduction in Britain's economic strength due to her war effort Furthermore it is shown that although this level of military spending may have slightly hampered post war recovery it was not in itself responsible for the decline of the British economy

The Dissolution of Yugoslavia and the Badinter Arbitration Commission Steve Terrett, 2017-11-22 This title was first published in 2000 Yugoslavia's dissolved at a time when rhetoric of the New World Order was firmly established in legal and political discourse Nevertheless the largely positive appraisal of international law's response to the Iraq Kuwait conflict has not been mirrored in relation to Yugoslavia This book evaluates the peace making efforts of the major institutional actors whilst focusing specifically on the Badinter Arbitration Commission an ad hoc EC created organ required to provide legal advice on the issues surrounding Yugoslavia's dissolution Initially composed of constitutional lawyers aiming to redraft Yugoslavia's constitution the Commission soon faced problems of public international law Its jurisprudence challenges international lawyers to reassess their state centric conceptions of international law in a world where most conflicts war crimes and human rights abuses exist within rather than between States This book is vital reading for anyone interested in international law international relations politics and central eastern European studies

A New Cold War Sanjaya Baru, Rahul Sharma, 2021-08-04 In July 1971 US National Security Advisor Henry Kissinger made a secret visit to China to meet top Chinese leaders This inaugurated a new phase not just in US China relations but in contemporary history That visit and the subsequent US China relationship including the US decision to invest in China's economic rise and admit it into the WTO combined to firm up the foundations of China's rise as a world power For more than four decades the leadership of the two countries had a secretive pact which worked well to each other's benefit The US helped power China's economic growth in the hope that Beijing would turn a new political leaf and adopt Western practices e.g. democracy China grew economically and militarily used its financial prowess to spread its influence across continents as four generations of Chinese leaders built their nation at the expense of the US Half a century after Kissinger's historic visit the US and China are today engaged in a trade war bordering on a new Cold War Washington is not openly talking about decoupling from China which has begun to challenge its global dominance but it might very well be China has already established itself as a dominant power across Eurasia More worryingly China is militarily and economically threatening its neighbours including Japan Korea Vietnam Taiwan Australia Philippines Indonesia and India This collection of critical essays examines the impact consequences and legacy of Kissinger's first door opening visit to China and how it has shaped world order

The Three Levels of Sustainability Elena Cavagnaro, George H. Curiel, 2022-08-08 Understanding the complexity of sustainability is crucial for the leadership of business organizations national governments and non governmental organizations This second edition of the bestselling book *The Three Levels of Sustainability* uses the same interdependent

three level and three dimensional framework as the first edition encompassing societal organizational and individual levels to clearly demonstrate what sustainability means and how to implement it This new edition incorporates important developments in reporting and measuring corporate behaviors the impact of COVID 19 and the UN Sustainable Development Goals More and more societies are becoming aware of their dependence on earth s resources However there is still a deep rooted lack of awareness of the connection between society s ambitions for economic growth earth s limitations and unequal distribution of wealth Prominent institutions and organizations and their leaders rely on the conformable belief that more quantity equals more quality and that more growth equals more development Although some progress has been made since the publication of the first edition the world is increasingly characterized by division rising dissatisfaction and growing inequality between countries communities and people At the same time it is anticipated that global warming will reach a point of no return between 2030 and 2052 The fundamental paradigm shift in the way the development process must be navigated is better served by a holistic and inclusive multilevel and multidimensional approach meant to gradually align the critical institutional and individual factors essential to the pathway toward sustainable development The book has been established as an excellent primer to explain the complex issues around sustainability for postgraduate and undergraduate students as well as busy professionals and those already in management and leadership positions in the private public or non profit sectors

Strimitzer, 2022-03-17 Diploma Thesis from the year 2021 in the subject American Studies Miscellaneous grade 1 University of Graz Amerikanistik language English abstract This thesis investigates the relationship between apocalyptic fiction and reality during the Cold War era By exploring the zeitgeist and media landscape of the American Cold War culture this thesis demonstrates that apocalyptic fiction had a significant bilateral role during those times and influenced the contemporary nuclear discourse This is illustrated by analyzing two popular apocalyptic movies *On the Beach* 1959 and *The Day After* 1983 Both films portray a worst case scenario in which the protagonists are confronted with the disastrous consequences of a nuclear war These movies are not just blockbusters for entertainment but fuel and contribute to the ongoing nuclear discourse about the Cold War era and its politics of deterrence In its theoretical part this thesis provides an overview of the Cold War era and reveals how the beginning of the Atomic Age changed the dynamics of power and politics forever It focuses on the international cultural discourse concerned with nuclear weaponry and illustrates how the politics of deterrence came into being Afterwards this thesis focuses on the US specific nuclear discourse and how it was portrayed in US mainstream media Additionally this thesis engages with the Cold War as a concept of thought It aims at providing a deeper understanding of its intrinsic mechanisms and explains why the Cold War can be classified as a war against people s imagination Therefore this thesis provides an overview of modern apocalypticism research and investigates the role of narratives in the Atomic Age In its analytical part the films *On the Beach* 1959 and *The Day After* 1983 are interpreted as crisis texts according to the
