SOVIET POLICY IN EASTERN

EUROPE AND CHINA (Pages 554–556)

How did the Soviets keep control over Eastern Europe?

Nikita Khrushchev became the Soviet leader after Stalin died in 1953. Khrushchev began a process of “destalinization.” This meant getting rid of Stalin’s memory. Khrushchev also believed that the Soviet Union should have “peaceful competition” with the capitalist nations.

In Eastern Europe, many people still resented Soviet rule. Eastern Europeans took part in protest movements against Soviet control. In 1956, protesters and the army overthrew the Communist

government of Hungary. Khrushchev sent Soviet tanks to put the Communists back in power. In 1964, Leonid Brezhnev replaced Khrushchev. When Czechoslovakians began to reform their Communist government in 1968, Brezhnev sent in tanks to stop them.

The Soviets did not have the same control over their larger neighbor, China. Although the Soviet Union and China enjoyed friendly relations at first, they gradually grew apart. The split became so wide that the Soviet Union and China sometimes fought along their border. The two nations now have a peaceful relationship.

September Thaw Gary John Tocchet, 1995 **The American Journey** Joyce Oldham Appleby, Alan Brinkley, James M. McPherson, 2003 The Story of America John Arthur Garraty, 1994 *Bowling for Communism* Andrew Demshuk, 2020-10-15

Bowling for Communism illuminates how civic life functioned in Leipzig East Germany's second largest city on the eve of the 1989 revolution by exploring acts of urban ingenuity amid catastrophic urban decay. Andrew Demshuk profiles the creative activism of local communist officials who with the help of scores of volunteers constructed a palatial bowling alley without Berlin's knowledge or approval. In a city mired in disrepair, civic pride overcame resentment against a regime loathed for corruption, Stasi spies, and the Berlin Wall. Reconstructing such episodes through interviews and obscure archival materials, Demshuk shows how the public sphere functioned in Leipzig before the fall of communism. Hardly detached or inept, local officials worked around centralized failings to build a more humane city. And hardly disengaged, residents turned to black market construction to patch up their surroundings. Because such urban ingenuity was premised on weakness in the centralized regime, the dystopian cityscape evolved from being merely a quotidian grievance to the backdrop for revolution. If by their actions officials were demonstrating that the regime was irrelevant and if in their own experiences locals only attained basic repairs outside official channels, why should anyone have mourned the system when it was overthrown?

New International Dictionary, 1920 Investigation of the Assassination of President John F. Kennedy United States. Warren Commission, 1964 **The Soviet Union - Federation or Empire?** Tania Raffass, 2012-06-14. The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence. This book questions this interpretation, revisiting the theory of federation and discussing actual examples of federations such as the United States, arguing that many federal unions including the United States are really centralised polities. It also discusses the nature of empires, nations, and how they relate to nation states and empires, and the right of secession, highlighting the importance of the fact that this was written in to the Soviet constitution. It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union. Overall, it demonstrates that the Soviet attitude to nationalities and federal units was complicated, wrestling in a similar way to many other states with difficult questions of how ethno-cultural justice can best be delivered in a political unit which is bigger than the national state.
