Cutting for All! Kevin L. Seligman, 1996. Containing 2 729 entries. Kevin L. Seligman's bibliography concentrates on books, manuals, journals, and catalogs covering a wide range of sartorial approaches over nearly five hundred years. After a historical overview, Seligman approaches his subject chronologically, listing items by century through 1799, then by decade. In this section, he deals with works on flat patterning, draping, grading, and tailoring techniques, as well as on such related topics as accessories, armor, civil costumes, clerical costumes, dressmakers, systems, fur, gloves, leather, military uniforms, and undergarments. Seligman then devotes a section to those American and English journals published for the professional tailor and dressmaker. Here too, he includes the related areas of fur and undergarments. A section devoted to journal articles features selected articles from costume and noncostume-related professional journals and periodicals. The author breaks these articles down into three categories: American, English, and other. Seligman then devotes separate sections to other related areas, providing alphabetical listings of books and professional journals for costume and dance, dolls, folk and national dress, footwear, millinery and wigmaking, and hair. A section devoted to commercial pattern companies, periodicals, and catalogs is followed by an appendix covering pattern companies, publishers, and publications. In addition to full bibliographic notation, Seligman provides a library call number and library location if that information is available. The majority of the listings are annotated. Each listing is coded for identification and cross referencing. An author index, a title index, a subject index, and a

chronological index will guide readers to the material they want Seligman's historical review of the development of publications on the sartorial arts professional journals and the commercial paper pattern industry puts the bibliographical material into context An appendix provides a cross reference guide for research on American and English pattern companies publishers and publications Given the size and scope of the bibliography there is no other reference work even remotely like it
