1. Controls on Prices

Price controls are used when policy-makers believe the market price is unfair to buyers/sellers.

2. How Price Ceilings Affect Market Outcomes

- **Price Ceiling:** a legal maximum on the price at which a good can be sold.
 - Imposed by governments
- Price ceilings occur when there is a conflict of interest between consumers and sellers.
 - Consumers want a lower price, sellers want a higher price – therefore, government imposes a price ceiling to ensure that sellers don't charge too high a price
- Two outcomes of a price ceiling:
 - If the price ceiling is **above** equilibrium price (not binding), there is no effect.
 - If the price ceiling is **below** equilibrium price (binding), there is a **shortage** (quantity demanded > quantity supplied)

Price Ceiling – Not Binding

Price Ceiling – Binding

Computational Analysis of Terrorist Groups: Lashkar-e-Taiba V.S. Subrahmanian, Aaron Mannes, Amy Sliva, Jana Shakarian, John P. Dickerson, 2012-08-28 Computational Analysis of Terrorist Groups Lashkar e Taiba provides an in depth look at Web intelligence and how advanced mathematics and modern computing technology can influence the insights we have on terrorist groups This book primarily focuses on one famous terrorist group known as Lashkar e Taiba or LeT and how it operates After 10 years of counter Al Qaeda operations LeT is considered by many in the counter terrorism community to be an even greater threat to the US and world peace than Al Qaeda Computational Analysis of Terrorist Groups Lashkar e Taiba is the first book that demonstrates how to use modern computational analysis techniques including methods for big data analysis This book presents how to quantify both the environment in which LeT operate and the actions it took over a 20 year period and represent it as a relational database table This table is then mined using sophisticated data mining algorithms in order to gain detailed mathematical computational and statistical insights into LeT and its operations This book also provides a detailed history of Lashkar e Taiba based on extensive analysis conducted by using open source information and public statements Each chapter includes a case study as well as a slide describing the key results which are available on the authors web sites Computational Analysis of Terrorist Groups Lashkar e Taiba is designed for a professional market composed of government or military workers researchers and computer scientists working in the web intelligence field Advanced level students in computer science will also find this valuable as a reference book

Rescaling Social Policies towards Multilevel Governance in Europe Yuri Kazepov, 2017-10-24 The workings of multi level governance institutional choices concerning centralisation decentralisation and subsidiarity are widely debated within European public policy but few systematic studies assessing the effects of changing divisions of power for policy making have been carried out This volume offers an assessment of the workings of multi level governance in terms of social welfare policy across different clusters of European states Nordic Southern European Central and East European This book reports on a major comparative study at the European Centre for Social Welfare policy and Research which included partners from universities in Finland France Italy Norway Sweden Poland Spain and Switzerland It reports on three particular policy areas social assistance and local policies against poverty activation and labour market policies and care for the elderly The authors describe different starting points strategies and solutions in European countries which are facing similar challenges and

could thus learn from each other They explore the differences between European welfare regimes in terms of territorial responsibilities the changes that have taken place over the past few years and their effects The book is distinctive in highlighting comparative transversal and transnational issues of multi level governance in social welfare policies rather than presenting country reports
