Fraser, 2024-06-25 This book explores the role of the British Police in home food production during the First World War a
critical time when decreasing food imports threatened population starvation around the country Drawing from the police s
most popular weekly journal the book provides insights into policemen s lives the political context in which they worked and
the pressures on police forces throughout Britain during the Great War Unlike neighbouring countries in Europe Britain
avoided major food riots due to government control of farming from December 1916 which prioritised agriculture to feed the
nation The police force released over 400 policemen in England and Scotland to serve as ploughmen from March 1917 for
around two months Almost a third of policemen throughout Britain had previous agricultural backgrounds and so were
welcomed by farmers as experienced workers This book illustrates not only why the food crisis arose and the state of British
farming during the war but it also sheds light on how individual police forces were approached and encouraged to release
their policemen at a time when police forces themselves were critically short of staff due to recruitment into the war The
author discusses how the release of policemen into agriculture as first responders benefitted the police and provided
