

# > Biology Workbook answers

Any example answers to questions taken from past question papers, practice questions, accompanying marks and mark schemes included in this resource have been written by the authors and are for guidance only. They do not replicate examination papers. In examinations the way marks are awarded may be different.

## Chapter 1

### Exercise 1.1

#### Focus

1

Term	Description
nutrition	making more of the same kind of organism
respiration	removing waste products of metabolism
growth	a permanent increase in size and dry mass
excretion	taking in materials for energy, growth and development
reproduction	chemical reactions that release energy from nutrient molecules

#### Practice

2

Growth – the plant makes new cells so it increases in size.

Reproduction – gametes are made in the flower, which fuse together to produce a zygote; this is sexual reproduction. (Note: If students have not previously studied reproduction, accept an answer that refers simply to reproduction as making more of the same species.)

Excretion – the plant makes oxygen as a waste product of photosynthesis, and loses it from its leaves.

Sensitivity – the plant senses the direction from which light comes, and the stem and leaves grow towards it.

**Magill's Medical Guide** Salem Press, Nancy A. Piotrowski, 1996      **Biology: How Life Works (Volume 1)** James Morris, 2013-01-04 Ordinarily textbooks are developed by first writing chapters then making decisions about art and images and finally once the book is complete assembling a test bank and ancillary media This process dramatically limits the integration across resources and reduces art media and assessments to ancillary material rather than essential resources for student learning Biology How Life Works is the first project to develop three pillars the text the visual program and the assessment at the same time All three pillars were developed in parallel to make sure that each idea is addressed in the most appropriate medium and to ensure authentic integration These three pillars are all tied to the same set of core concepts share a common language and use the same visual palette In this way the text visual program and assessments are integral parts of student learning rather than just accessories to the text      **Understanding Biology** Burton S. Guttman, Johns W. Hopkins, 1983      **Radiologic Science for Technologists** Stewart C. Bushong, Elizabeth Shields, Mha Rt(r), Stewart C Bushong, Scd Faapm Facr, 2004 This popular workbook laboratory manual is intended to help students review information and sharpen skills that are essential to becoming a competent radiographer The workbook is divided into worksheets that complement the material covered in the text Suitable for homework or in class assignments the workbook contains worksheets crossword puzzles laboratory experiments a math tutor section and helpful appendices Worksheets correspond with the five sections of the main book covering radiologic physics the x ray beam the radiographic image special x ray imaging and radiation protection Over 100 worksheets focus on particular topics from specific chapters in the text Bushbits provide a concise summary of information from the textbook that is relevant to the exercise questions Math Tutor worksheets on decimal and fractional timers fraction decimal conversion solving for desired mAs and technique adjustments provide an excellent refresher or additional practice with relevant math concepts Laboratory Experiments provide the framework for experiments in the lab setting designed to aid in understanding via hands on experience      **Biology** Karen Arms, Pamela S. Camp, 1982      **BioSupplyNet Source Book** , 2000      **Polish Journal of Chemistry** , 1995
