Geography of Tourism Peter Mason, 2017-11-30 Provides both an awareness of the spatial nature of tourism by means of a geographical perspective and offers critical analysis of major contemporary geographical themes and issues that relate to tourism

Clowning as Social Performance in Colombia Barnaby King, 2016-12-01 Contemporary Clowning as Social Performance in Colombia brings to light the emergence of new kinds of clowning in everyday life in Colombia focusing particularly on the pervasive presence of clowns in the urban landscape of Bogotá. In doing so it brings a fresh and updated perspective on what clowning is as well as what it does in the 21st century. Featuring descriptions of more than 24 distinct clown performers Barnaby King provides an engaging and lively account of the performative moment in which clowning transpires analyzing the techniques and processes at work in producing what is commonly named as clowning. In contrast with their North American and European counterparts clowns in Latin America are seen every day in public settings are popular cultural figures and sometimes claim to exercise real political influence. Drawing on five years of co-performative ethnography the book argues that clown artists have thrived by adapting their craft to changing social and economic conditions in some cases by allying themselves with authority and power and in others by generating spaces for creativity and resistance in adverse circumstances. By applying performance theory to clowning in a specific cultural context this is the first work to propose an appropriate scholarly response to the diversity and ingenuity of clowning beyond Europe and North America.

Events in the City Andrew Smith, 2015-11-19 Cities are staging more events than ever. Within this macro trend there is another less acknowledged trend: more events are being staged in public spaces. Some events have always been staged in parks, streets and squares but in recent years events have been taken out of traditional venues and staged in prominent urban spaces. This is favoured by organisers seeking more memorable and more spectacular events but also by authorities who want to animate urban space and make it more visible. This book explains these trends and outlines the implications for public spaces. Events play a positive role in our cities but turning public spaces into venues is often controversial. Events can denigrate as well as animate city space; they are part of the commercialisation, privatisation and securitisation of public space noted by commentators in recent years. The book focuses on examples from London in particular but it also covers a range of other cities from the developed world. Events at different scales are addressed and there is dedicated coverage of sports events and cultural events. This topical and timely volume provides valuable material for higher level students, researchers and academics from events studies, urban studies and development studies.

Producing 101 Liz Gill, 2025-10-16 This book offers a step by step exploration of a Producer's on-set responsibilities within the context of creating a TV series or feature film. Being a successful Producer requires you to have an intimate understanding of global finances, law, union rules and negotiating. The role also requires solid filmmaking skills from scriptwriting to scheduling, casting to cutting and sound mixing to marketing. But most important of all these skills is leadership: building a team and

facilitating a collection of highly trained and often artistically temperamental individuals to do their best collective work This book describes best practice across geographical jurisdictions identifying key universal principles as well as the specific and unique detail work that make a great Producer Each chapter offers meaningful advice from experienced industry experts useful examples including real world templates of crucial paperwork and preventative measures that can be implemented Producers of all backgrounds will benefit from clear concise writing that outlines industry standard structures protocols and processes and why they work This book will prove invaluable to people starting out in their careers but also those interested in exploring producing who come from other departments such as Assistant Directors Production Managers and Line Producers and those changing formats such as from TV to film
