Handbook of Psychology, Assessment Psychology Irving B. Weiner, John R. Graham, Jack A. Naglieri, 2012-10-16
Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do. This award-winning twelve-volume reference covers every aspect of the ever-fascinating discipline of psychology and represents the most current knowledge in the field. This ten-year revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology.

Beta III Charles Edwin Kellogg, N. W. Morton, 1999 [Essentials of Nonverbal Assessment](#) Steve McCallum, Bruce Bracken, John Wasserman, 2001. Quickly acquire the knowledge and skills you need to confidently administer, score, and interpret nonverbal assessment tests. *Essentials of Nonverbal Assessment* covers the nine most widely used nonverbal assessment tests: the Comprehensive Test of Nonverbal Intelligence (CTONI), Tests of Nonverbal Intelligence (TONI-III), Universal Nonverbal Intelligence Test (UNIT), Leiter-R Beta Third Edition, Beta III Cognitive Abilities Test (CogAT), General Ability Measure for Adults (GAMA), Naglieri Nonverbal Ability Test (NNAT), Multilevel Form NNAT, and Raven's Progress Matrices. To use the tests properly, professionals need an authoritative source of advice and guidance on how to administer, score, and interpret these tests. Written by Drs. McCallum and Bracken, creators of the UNIT, and Dr. Wasserman of the University of Tennessee, *Essentials of Nonverbal Assessment* is that source. Like all the volumes in the *Essentials of Psychological Assessment* series, this book is designed to help busy mental health professionals quickly acquire the knowledge and skills they need to make optimal use of major psychological assessment instruments. Each concise chapter features numerous callout boxes highlighting key concepts, bulleted points, and extensive illustrative material, as well as test questions that help you gauge and reinforce your grasp of the information covered. *Essentials of Nonverbal Assessment* includes vital information about each of the nonverbal tests, including practical interpretation scales. The authors provide step-by-step guidance on test administration, scoring, and interpretation, along with their expert assessment of the tests' relative strengths and weaknesses, valuable advice on their clinical applications, and several illuminating case reports. Other titles in the *Essentials of Psychological Assessment* series: *Essentials of WAIS-III Assessment*, *Essentials of Bayley Scales of Infant Development-II Assessment*, *Essentials of WISC-III and WPPSI-R Assessment*, *Essentials of Myers-Briggs Type Indicator Assessment*, *Essentials of Rorschach Assessment*, *Essentials of Career Interest Assessment*, *Essentials of Cognitive Assessment with KAIT and Other Kaufman Measures*, *Essentials of Cross-Battery Assessment*.
