## Hazard Identification

### Globally Harmonized System

The Globally Harmonized System of Classification and Labeling of Chemicals (GHS) provides an international standardized approach to the classification and labeling of chemicals. The Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (HCS) aligns with the GHS to ensure consistency of information. The HCS requirements include:

**Hazard Classification:** Provides specific criteria for classification of health, physical and environmental hazards, as well as classification of mixtures.

**Labels:** Chemical manufacturers and importers
