The Chronicles of America Series: Yale course of home study ,1924 The Chronicles of America Series: The Yale course of home study ,1924 **Cinema, Transnationalism, and Colonial India** Babli Sinha,2013-07-18

Through the lens of cinema this book explores the ways in which the United States Britain and India impacted each other politically culturally and ideologically It argues that American films of the 1920s posited alternative notions of whiteness and the West to that of Britain which stood for democracy and social mobility even at a time of virulent racism The book examines the impact that the American cinema has on Indian filmmakers of the period who were integrating its conventions with indigenous artistic traditions to articulate an Indian modernity It considers the way American films in the 1920s presented an orientalist fantasy of Asia which occluded the harsh realities of anti Asian sentiment and legislation in the period as well as the exciting engagement of anti imperial activists who sought to use the United States as the base of a transnational network The book goes on to analyse the American empire films of the 1930s which adapted British narratives of empire to represent the United States as a new global paradigm Presenting close readings of films literature and art from the era the book engages cinema studies with theories of post colonialism and transnationalism and provides a novel approach to the study of Indian cinema

The Challenge of War Norman Thomas,1924 **The New Development Politics** James Petras,2017-07-05 A critique of current conceptions of international political economy the role of the state and contemporary social movements The New Development Politics challenges the dominant paradigms in the field of development studies Raising fundamental theoretical and empirical questions it provides a coherent response to the increasing militarization of inter state relations increasing protectionism and inter state rivalries and the growing age of state intervention in political economic and social life The study presents a critical analysis of US empire building the role of dirty money and political power as opposed to technological change It features a discussion of neo mercantilism as a new mode of empire and examines the role of new movements of unemployed and landless peasants in key Third World countries *Warped: Gay Normality and Queer*

Anti-Capitalism Peter Drucker,2015-02-04 Recent victories for LGBT rights especially the spread of same sex marriage have gone faster than most people imagined possible Yet the accompanying rise of gay normality has been disconcerting for activists with radical sympathies Global in scope and drawing on a wide range of feminist anti racist and queer scholarship and analysis *Warped Gay Normality and Queer Anti Capitalism* shows how the successive same sex formations of the past century and a half corresponding to different phases of capitalist development have led both to the emergence of today s homonormativity and homonationalism and to ongoing queer resistance The book s second half summarises different sexual rebellions and the queer dimension of multifarious movements for social justice and transformation seeing in them harbingers of a unified and powerful queer anti capitalism **Countering China's Great Game** Michael Scott

Sobolik,2024-04-15 The United States is in the midst of a new cold war with the Chinese Communist Party CCP and America is losing That claim at the core of Michael Sobolik s new book Countering China s Great Game A Strategy for American Dominance challenges the Washington D C conventional wisdom about U S China relations Officials in Washington are reacting to the CCP and playing defense Like America s efforts to contain the Soviet Union in the twentieth century Cold War the United States needs a strategic vision to overcome the CCP Sobolik offers a plan for American victory over the CCP and presents a roadmap to sabotage the crux of the CCP s foreign policy the Belt and Road Initiative BRI At its core the BRI is not an economic venture It is a geopolitical gambit Chinese leader Xi Jinping s project of the century has entered its second phase leveraging yesterday s investments for today s political and military ends Xi will never do away with the BRI because it is strengthening Beijing s strategic position from Southeast Asia and the Pacific Islands to Africa and Latin America The BRI is the apotheosis of the CCP s grand strategy America needs a blueprint to take it down Sobolik provides this blueprint by identifying the BRI s core weakness imperial overstretch After identifying China s penchant for empire building he identifies the BRI s key weaknesses globally and traces them back to the CCP s vulnerabilities at home Sobolik s work offers policymakers a plan to go on the offense and win America s new cold war **World History: Connections to Today**
