

CHAPTER 10 Section 1 (pages 342–345)

Imperialism and America

BEFORE YOU READ

In the last section, you read about Woodrow Wilson.

In this section, you will learn how economic activity led to political and military involvement overseas.

AS YOU READ

Use this web diagram to take notes. Fill it in with details about the causes of U.S. imperialism.

TERMS AND NAMES

Queen Liliuokalani The Hawaiian queen who was forced out of power by a revolution started by American business interests

imperialism The practice of strong countries taking economic, political, and military power over weaker countries

Alfred T. Mahan American imperialist and admiral who urged the United States to build up its navy and take colonies overseas

William Seward Secretary of state under Presidents Lincoln and Johnson

Pearl Harbor Naval port in Hawaii

Sanford B. Dole American businessman who became president of the new government of Hawaii after the queen was pushed out.

American Expansionism

(pages 342–344)

Why did Americans support imperialism?

In 1893, **Queen Liliuokalani** of Hawaii gave up her throne. Hawaii was about to be taken over by the United States.

By the 1880s, many American leaders thought the United States should establish colonies overseas. This idea was called **imperialism**—the policy in which stronger nations extend economic, political or military control over weaker territories. European countries had competed for territory all over the world. Most Americans gradually accepted the idea of overseas expansion.

Three factors fueled American imperialism: desire for military strength, thirst for new markets, and a belief in the superiority of American culture.

Admiral **Alfred T. Mahan** of the U.S. Navy supported growing American naval power so the U.S. could compete with other nations. The U.S. built such modern battleships as the *Maine* and the *Oregon*. The new ships made the U.S. the world's largest naval power.

By the late 1800s, *technology* had changed American farms and factories. They produced more than Americans could consume. So the U.S. needed foreign trade. American businesses needed markets for their products and raw materials for their factories.

Hannigan, 2013-07-17 From the era of the Spanish American war onward the United States found itself increasingly involved in the affairs of countries beyond North America The New World Power offers an interpretive framework for understanding U S foreign policy during the first two decades of America s emergence as a world power Robert E Hannigan describes the aspirations of American leaders explores the bedrock social views and ideological framework they held in common and shows how the approach of U S policymakers overseas mirrored their attitudes toward domestic progressivism While the vast bulk of work on U S foreign policy has been concerned with the period from World War II to the present this comprehensive examination of American policy at the turn of the twentieth century is of vital importance to the comprehension of subsequent events Hannigan relates U S foreign policy to domestic society in ways that are new in particular he examines how issues of class race and gender were combined in the ideology held by policy makers and how this shaped their approaches to foreign affairs His study reveals a fundamental unity to U S activity throughout the period not only toward the Caribbean and China regions that have been the traditional focus of historians but toward the rest of North and South America as well It also relates these regional activities to American policy toward the British Empire European great power rivalries and international institutions arbitration and law culminating in a reinterpretation of U S involvement in World War I Based on exhaustive research in the writings of presidents secretaries of state and key diplomats and advisers The New World Power draws parallels between the methods by which policy makers sought to shape international society and the methods by which many of them hoped to secure the conditions they wanted within the United

States Most important the book describes how an international search for order constituted the fundamental strategy by which American leaders sought to ensure for the United States a position of what they saw as wealth and greatness in the coming twentieth century world World History: Connections to Today Elisabeth Gaynor Ellis, Pearson/Prentice Hall, 2003-12 American Grand Strategy and Corporate Elite Networks Bastiaan Van Apeldoorn, Naná de Graaff, 2015-10-23 This book presents a novel analysis of how US grand strategy has evolved from the end of the Cold War to the present offering an integrated analysis of both continuity and change The post Cold War American grand strategy has continued to be oriented to securing an open door to US capital around the globe This book will show that the three different administrations that have been in office in the post Cold War era have pursued this goal with varying means from Clinton's promotion of neoliberal globalization to Bush's war on terror and Obama's search to maintain US primacy in the face of a declining economy and a rising Asia In seeking to make sense of both these strong continuities and these significant variations the book takes as its point of departure the social sources of grand strategy making with the aim to relate state public power to social private power While developing its own theoretical framework to make sense of the evolution of US grand strategy it offers a rich and rigorous empirical analysis based on extensive primary data that have been collected over the past years It draws on a unique data set that consists of extensive biographical data of 30 cabinet members and other senior foreign policy officials of each of the past three administrations of Clinton G W Bush and Obama This book is of great use to specialists in International Relations within International Political Economy International Security and Foreign Policy Analysis as well as students of US Politics *CA Te Am Anthem 2007 Mod* Holt Rinehart & Winston, 2007 **Broadcasting in America** Sydney W. Blaakman, Emily Conroy-Krutz, Noelani Arista, 2023-03-21 Created in a world of empires the United States was to be something new an expansive republic proclaiming commitments to liberty and equality but eager to extend its territory and influence Yet from the beginning Native powers free and enslaved Black people and foreign subjects perceived interacted with and resisted the young republic as if it was merely another empire under the sun Such perspectives have driven scholars to reevaluate the early United States as the parameters of early American history have expanded in Atlantic continental and global directions If the nation's acquisition of Puerto Rico Guam and the Philippine Islands in 1898 traditionally marked its turn toward imperialism new scholarship suggests the United States was an empire from the moment of its creation The essays gathered in The Early Imperial Republic move beyond the question of whether the new republic was an empire investigating instead where how and why it was one They use the category of empire to situate the early United States in the global context its contemporaries understood drawing important connections between territorial conquests on the continent and American incursions around the globe They reveal an early U S empire with many different faces from merchants who sought to profit from the republic's imperial expansion to Native Americans who opposed

or leveraged it from free Black colonizationists and globe trotting missionaries to illegal slave traders and anti imperial social reformers In tracing these stories the volume s contributors bring the study of early U S imperialism down to earth encouraging us to see the exertion of U S power on the ground as a process that both drew upon the example of its imperial predecessors and was forced to grapple with their legacies Taken together they argue that American empire was never confined to one era but is instead a thread throughout U S history Contributors Brooke Bauer Michael A Blaakman Eric Burin Emily Conroy Krutz Kathleen DuVal Susan Gaunt Stearns Nicholas Guyatt Amy S Greenberg M Scott Heerman Robert Lee Julia Lewandoski Margot Minardi Ousmane Power Greene Nakia D Parker Tom Smith *Commercial Policy in War Time and After* William Smith Culbertson,1919 *Making War/making Peace* Francesca M.
