Richmond Richmond (Va.),1914 **Legal Accountability in EU Markets for Financial Instruments** Carl Fredrik
Bergström,Magnus Strand,2021-12-23 The proper functioning of the EU financial market is protected by public actors both
national and supranational responsible for rulemaking and supervision of investment firms and other private actors At the
same time the effectiveness of the EU legal system requires vigilance from private actors such as investment firms but also
their clients invoking their rights before national authorities and courts This means that investment firms have a dual role
within the system turning them into subjects of control and enforcement but also agents in the maintenance of the rule of law
Legal Accountability in EU Markets for Financial Instruments brings together a group of scholars with expertise from
different legal disciplines but a shared interest for the EU internal market and the way it develops It integrates a modern
study of the form and function of EU rulemaking in the internal market after the financial crisis The book includes an
evaluation of core aspects of rulemaking in the financial market and that way provides a cross cutting treatment of EU law
The focus of the book is set on the regulatory framework in MiFIDII and MiFIR and thematic questions around legal
mechanisms for accountability and the role of investment firms in the operation of those mechanisms It further discusses the
implications for EU law and the EU legal system and gives readers a thorough understanding of the concept of accountability
