Chapter 26 The Politics Of Protest Chart:

New Media and Political Participation in Russia and Kazakhstan Yerkebulan Sairambay, 2023-11-02 New Media and Political Participation in Russia and Kazakhstan Exploring the Lived Experiences of Young People in Eurasia confronts the sociological problem of the usage of new media by young people in political participation particularly in Eurasian countries The author explains how and why new media promotes political participation among young people in Russia and Kazakhstan While there has been no shortage of analysis about the interlinkage between new media and political participation this research is different it explains the mechanisms and reasons of new media assisted political participation This book develops two models theoretical and New Media Led Political Participation that better explain how new media use translates into political participation These models are of paramount importance for the study of new media led political participation which builds in depth knowledge to the research area from a post communist perspective This book not only sheds light on the ways in which and the reasons why new media contributes to the nature of political participation but also explains why citizens use new media in their political participation The author sets his sights on what occurs downstream i e not in the minds of political leaders and or well known oppositionists but on the ground in specific contexts such as cities towns and villages by young people

Political Protest in Western Europe Mario Quaranta, 2015-09-14 This book analyzes the individual and contextual determinants of protest politics in Western Europe Building on different theoretical perspectives from social movements theory to political behavior approaches the author provides new empirical evidence on the patterns of protest politics Readers will discover why some citizens are more likely to get involved in protests than others and why levels of protest differ from country to country The author illustrates that engagement in political protest is often rooted in the interplay of the protester s individual characteristics and their home country s contextual characteristics *Library of Congress Catalogs* Library of Congress, 1960

Routledge Library Editions: Political Protest Various, 2022-07-30 This 26 volume set is a wide ranging time and subject spanning examination of the phenomenon of political protest What drives people to take to the streets and how do their governments respond These questions and many more are analysed in areas as varied as sixteenth century German peasant uprisings revolutionary Russians at the Paris Commune women protesting nuclear weapons at Greenham Common and the role Christianity played in protests across the ages An impressive reference resource this set also looks at the policing of protests and official responses to them *The Saturday Review of Politics, Literature, Science and Art* , 1870

Repression and Accommodation in Post-Revolutionary States M. Krain, 2000-07-06 We know very little about political dynamics in states that have just experienced an internal war despite the increasing need to deal with such states in the post Cold War world Matthew Krain examines what prompts leaders in post revolutionary states to employ repression or accommodation Through statistical analysis and case studies of Iran Cuba Nicaragua and Bolivia he also examines the effects of these choices on how the domestic opposition reacts what type of

political system develops in the new state and whether or not the leaders who institute these policies survive in power in the long run Krain concludes with a series of policy recommendations

The Participation Gap Russell J. Dalton,2017-10-13 The dilemma of democracy arises from two contrasting trends More people in the established democracies are participating in civil society activity contacting government officials protesting and using online activism and other creative forms of participation At the same time the importance of social status as an influence on political activity is increasing The democratic principle of the equality of voice is eroding The politically rich are getting richer and the politically needy have less voice This book assembles an unprecedented set of international public opinion surveys to identify the individual institutional and political factors that produce these trends New forms of activity place greater demands on participants raising the importance of social status skills and resources Civil society activity further widens the participation gap New norms of citizenship shift how people participate And generational change and new online forms of activism accentuate this process Effective and representative government requires a participatory citizenry and equal voice and participation trends are undermining these outcomes The Participation Gap both documents the growing participation gap in contemporary democracies and suggests ways that we can better achieve their theoretical ideal of a participatory citizenry and equal voice
