Computers Privacy And Data Protection An Element Of Choice:

Computers, Privacy and Data Protection: an Element of Choice Serge Gutwirth,Yves Poullet,Paul De Hert,Ronald Leenes,2011-02-26 This timely interdisciplinary work on current developments in ICT and privacy data protection coincides as it does with the rethinking of the Data Protection Directive the contentious debates on data sharing with the USA SWIFT PNR and the judicial and political resistance against data retention The authors of the contributions focus on particular and pertinent issues from the perspective of their different disciplines which range from the legal through sociology surveillance studies and technology assessment to computer sciences Such issues include cutting edge developments in the field of cloud computing ambient intelligence and PETs data retention PNR agreements property in personal data and the right to personal identity electronic road tolling HIV related information criminal records and teenager s online conduct to name but a few

Designing for Privacy and its Legal Framework Aurelia Tamò-Larrieux,2018-11-03 This book discusses the implementation of privacy by design in Europe a principle that has been codified within the European Data Protection Regulation GDPR While privacy by design inspires hope for future privacy sensitive designs it also introduces the need for a common understanding of the legal and technical concepts of privacy and data protection By pursuing an interdisciplinary approach and comparing the problem definitions and objectives of both disciplines this book bridges the gap between the legal and technical fields in order to enhance the regulatory and academic discourse The research presented reveals the scope of legal principles and technical tools for privacy protection and shows that the concept of privacy by design goes beyond the principle of the GDPR The book presents an analysis of how current regulations delegate the implementation of technical privacy and data protection measures to developers and describes how policy design must evolve in order to implement privacy by design and default principles   Privacy in the Information Society Philip Leith,2016-12-05 Information society projects promise wealth and better services to those countries which digitise and encourage the consumer and citizen to participate As paper recedes into the background and digital data becomes the primary resource in the information society what does this mean for privacy Can there be privacy when every communication made through ever developing ubiquitous devices is recorded Data protection legislation developed as a reply to large scale centralised databases which contained incorrect data and where data controllers denied access and refused to remedy information flaws Some decades later the technical world is very different one and whilst data protection remains important the cries for more privacy oriented regulation in commerce and eGov continue to rise What factors should underpin the creation of new means of regulation The papers in this collection have been drawn together to develop the positive and negative effects upon the information society which privacy regulation implies   Reloading Data Protection Serge Gutwirth,Ronald Leenes,Paul De Hert,2013-10-28 This volume brings together papers that offer conceptual analyses highlight issues propose solutions and discuss practices regarding privacy and data protection The first section of the book provides an overview of developments in

data protection in different parts of the world The second section focuses on one of the most captivating innovations of the data protection package how to forget and the right to be forgotten in a digital world The third section presents studies on a recurring and still important and much disputed theme of the Computers Privacy and Data Protection CPDP conferences the surveillance control and steering of individuals and groups of people and the increasing number of performing tools data mining profiling convergence to achieve those objectives This part is illustrated by examples from the domain of law enforcement and smart surveillance The book concludes with five chapters that advance our understanding of the changing nature of privacy concerns and data protection **Future Law** Edwards Lilian Edwards,2020-03-02 How will law regulation and ethics govern a future of fast changing technologies Bringing together cutting edge authors from academia legal practice and the technology industry Future Law explores and leverages the power of human imagination in understanding critiquing and improving the legal responses to technological change It focuses on the practical difficulties of applying law policy and ethical structures to emergent technologies both now and in the future It covers crucial current issues such as big data ethics ubiquitous surveillance and the Internet of Things and disruptive technologies such as autonomous vehicles DIY genetics and robot agents By using examples from popular culture such as books films TV and Instagram including Black Mirror Disney Princesses Star Wars Doctor Who and Rick and Morty it brings hypothetical examples to life And it asks where law might go next and to regulate new phase technology such as artificial intelligence smart homes and automated emotion recognition

Privacy, Data Protection and Data-driven Technologies Martin Ebers,Karin Sein,2024-08-29 This book brings together contributions from leading scholars in law and technology analysing the privacy issues raised by new data driven technologies Highlighting the challenges that technology poses to existing European Union EU data protection laws the book assesses whether current legal frameworks are fit for purpose while maintaining a balance between supporting innovation and the protection of individual s privacy Data privacy issues range from targeted advertising and facial recognition systems based on artificial intelligence AI and blockchain and machine to machine M2M communication to technologies that enable the detection of emotions and personal care robots The book will be of interest to scholars policymakers and practitioners working in the fields of law and technology EU law and data protection **Cybersecurity, Privacy and Data Protection in EU Law** Maria Grazia Porcedda,2023-03-23 Is it possible to achieve cybersecurity while safeguarding the fundamental rights to privacy and data protection Addressing this question is crucial for contemporary societies where network and information technologies have taken centre stage in all areas of communal life This timely book answers the question with a comprehensive approach that combines legal policy and technological perspectives to capture the essence of the relationship between cybersecurity privacy and data protection in EU law The book explores the values interconnections and tensions inherent to cybersecurity privacy and data protection within the EU constitutional architecture and its digital agendas The work s novel analysis looks at the interplay between digital policies instruments including the GDPR NIS Directive

cybercrime legislation e evidence and cyber diplomacy measures and technology as a regulatory object and implementing tool This original approach which factors in the connections between engineering principles and the layered configuration of fundamental rights outlines all possible combinations of the relationship between cybersecurity privacy and data protection in EU law from clash to complete reconciliation An essential read for scholars legal practitioners and policymakers alike the book demonstrates that reconciliation between cybersecurity privacy and data protection relies on explicit and brave political choices that require an active engagement with technology so as to preserve human flourishing autonomy and democracy
