that were based on theories developed in other disciplines mainly the physical and social sciences And an implicit assumption was made that there should be a single strategy for theory development some claiming to begin the process from practice and others believing it should be driven by research Provided by publisher Houghton Mifflin Reading : the Literature Experience : Level 4 : Dinosauring : Teacher's Book: 1993 ,1993 **Educational Psychology** Stephen Elliott,John F Travers,1995 **Human Adjustment** Janet A.
