Nationalism

Essential Question: How can nationalism be a unifying and a divisive force?

I. WARM-UP

1. Nationalism is a strong feeling of pride in and devotion to one's country. Each nation has symbols that help bring those feelings to mind.

Sketch below and identify three symbols that you associate with the United States.

--	--	--

How do these symbols help foster a feeling of unity in the nation?

II. EXPLORATION

Nationalism can be an ideology, a feeling, or a social or political movement that focuses on the nation. As you complete the following journal entries, you will see how nationalism has been a unifying and divisive force in shaping the modern world.

1. **French Revolution:** Review the songs, symbols, and slogans associated with the French Revolution.

Songs	Symbols	Slogans
Marseillaise: "Forward children of the homeland / The day of glory has arrived / Against us, tyranny's bloody standard / Has been raised."	Tricolor flag Red cap of liberty Everyone called "citizen"	"Liberty, Equality, Brotherhood, or Death" "Tremble, enemies of France"
La Carmagnole: "Let's dance the Carmagnole / Long live the citizen's coat."	Elaborate clothes abolished

Hans Kohn

Concept Connector Journal Nationalism:

Exploring Networked Urban Mobilities Malene Freudendal-Pedersen, Sven Kesselring, 2017-10-20 Exploring Networked Urban Mobilities explores different conceptual and theoretical angles between social practices and urban environments culture infrastructures technologies and the politics of mobility The book introduces the concept of networked urban mobilities and lays out a research agenda for the future of mobility studies Each of the contributors represents a specific approach in the field and each article provides cutting edge theoretical and conceptual reflections on the topic Mobility here is understood as a heterogeneous phenomenon that shapes modern societies and cities by emerging in different dimensions as physical social cultural and digital mobilities

Middle Classes in Africa Lena Kroeker, David O'Kane, Tabea Scharrer, 2018-02-19 This volume challenges the concept of the new African middle class with new theoretical and empirical insights into the changing lives in Sub Saharan Africa Diverse middle classes are on the rise but models of class based on experiences from other regions of the world cannot be easily transferred to the African continent Empirical contributions drawn from a diverse range of contexts address both African histories of class formation and the political roles of the continent's middle classes and also examine the important interdependencies that cut across inter generational urban rural and class divides This thought provoking book argues emphatically for a revision of common notions of the middle class and for the inclusion of insights from the South into the global debate on class Middle Classes in Africa will be of interest to students and scholars across a range of disciplines as well as NGOs and policy makers with an interest in African societies

Resources in Education, 1997-10

Germany, Europe and the Persistence of Nations Stephen Wood, 2018-12-20 Published in 1998 this book is an articulate and densely documented account of political cultural and historical forces and tensions involved in contemporary European integration most especially concerning Germany In doing so it provides an effective fusion of a vast array of material from what are normally separate disciplines The book investigates contemporary resonances of identifications and conceptions of political boundaries that appeared in Europe in the late eighteenth and nineteenth century It argues that within a supranationalising Europe national identity and nationalism have not disappeared as cultural and political phenomena Rather they persist and manifest themselves in variable forms at popular and elite levels This is the basis for Europe's condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it

Emerging Voices Huping Ling, 2008-12-30 While a growing number of popular and scholarly works focus on Asian Americans most are devoted to the experiences of larger groups such as Chinese Japanese Korean Filipino and Indian Americans As the field grows there is a pressing need to understand the smaller and more recent immigrant communities Emerging Voices fills this gap with its unique and compelling discussion of underrepresented groups including Burmese Indonesian Mong Hmong Nepalese Romani Tibetan and Thai Americans Unlike the earlier and larger groups of Asian immigrants to America many of whom made the choice to emigrate to seek better

economic opportunities many of the groups discussed in this volume fled war or political persecution in their homeland Forced to make drastic transitions in America with little physical or psychological preparation questions of why am I here who am I and why am I discriminated against remain at the heart of their post emigration experiences Bringing together eminent scholars from a variety of disciplines this collection considers a wide range of themes including assimilation and adaptation immigration patterns community education ethnicity economics family gender marriage religion sexuality and work

Interdisciplinary Literary Studies ,2005 *Preventing and Countering Violent Extremism in a Postcolonial Context* Fabrizio Leonardo Cuccu,2025-08-01 This book examines how global policies designed to prevent extremism have shaped religious and security governance in Tunisia in recent years focusing on local programmes for training imams By tracing the evolution of security measures in Tunisia from the colonial era to today this book highlights how transnational security policies particularly those promoted after 2011 have reinforced state control over religion While many studies explore religion s role in politics this work shows how international security agendas influence religious institutions and discourse locally Through interviews with religious leaders and civil society organizations this book uncovers how Tunisian institutions have strategically used international counter extremism frameworks to justify increased security measures It also sheds light on the evolving role of imams as security actors By linking past and present this book challenges the idea that counter extremism policies are neutral showing instead how they often echo colonial era policing This book will be of interest to students of countering violent extremism securitization African studies and International Relations in general

Current Index to Journals in Education ,1999-07 The Wall Street Journal ,1992 **Wall Street Journal Index** ,1992

Traditional Dwellings and Settlements Review ,2008 **South Africa International** ,1982-07 **Resources in Education** ,1997 Nationalism Anthony D. Smith,2010-11-08 For the last two centuries nationalism has been a central feature of society and politics Few ideologies can match its power and resonance and no other political movement and symbolic language has such worldwide appeal and resilience But nationalism is also a form of public culture and political religion which draws on much older cultural and symbolic forms Seeking to do justice to these different facets of nationalism the second edition of this popular and respected overview has been revised and updated with contemporary developments and the latest scholarly work It aims to provide a concise and accessible introduction to the core concepts and varieties of nationalist ideology a clear analysis of the major competing paradigms and theories of nations and nationalism a critical account of the often opposed histories and periodization of the nation and nationalism and an assessment of the prospects of nationalism and its continued global power and persistence Broad and comparative in scope the book is strongly interdisciplinary drawing on ideas and insights from history political science sociology and anthropology The focus is theoretical but it also includes a fresh examination of some of the main historical and contemporary empirical contributions to the literature on the subject It will continue to be an invaluable resource for students of nationalism across the social

sciences *What's Nationalism?* Joyce Jeffries, 2019-12-15 The concept of nationalism is often in the news and it can be challenging to understand why it often leads to heated debates However it s important for people to think critically about nationalism and its effects Readers are encouraged to do this as they explore historical and up to date examples of nationalism through accessible text and detailed fact boxes Graphic organizers provide additional information and avenues for further engagement and full color photographs enhance this learning experience As readers explore this divisive concept they re able to connect what they ve learned in social studies classes to current events **The Idea of Nationalism** Hans Kohn, 1956 **Advanced Introduction to Nationalism** Liah Greenfeld, 2016 Elgar Advanced Introductions are stimulating and thoughtful introductions to major fields in the social sciences and law expertly written by the world s leading scholars Designed to be accessible yet rigorous they offer concise and lucid surveys of the substantive and policy issues associated with discrete subject areas This original Introduction presents nationalism as the most important social force shaping the ways modern men and women live their lives It explains the formative influence of nationalism in the public spheres of politics and the economy as well as in the most private ones of emotional life and mental illness Along the way it illuminates widely used but rarely clarified concepts such as social institution revolution ideology and totalitarianism and introduces new ones among them dignity capital and nationalism as the double helix of modern politics Basing its conclusions on over twenty five years of original comparative historical research this book bears the characteristic Liah Greenfeld imprint fact based discussion logical rigor unexpected connections and an exceptionally wide range of issues weaved together to explain the way we live now Key features include Discusses nationalism as an empirical phenomenon not an object of speculation Distills findings of over twenty five years of original comparative historical research Introduces original concepts of dignity capital and nationalism as the double helix of modern politics **Global Nationalism: Ideas, Movements And Dynamics In The Twenty-first Century** Pablo De Orellana, Nicholas Michelsen, 2022-10-04 The twenty first century is witnessing a truly transnational revival of a very old set of ideas Despite romantic attachments to old symbols these late modern nationalism movements are not simply replicas of the previous two waves of nationalism in the 1860s and 1920s Nor is it true that today s nationalism movements want simply to return to the past and effect a nationalist 1930s style retrenchment From Putin s macho revivalism through to Trump s shocking victory and Xi s strongman regionalism nationalists engage with the economic context of our time and address issues born of globalization Crucially in their vision for international relations they seek the destruction of key international norms in a drive to restore a vision of sovereignty predicated on a survivalist understanding of state power *Global Nationalism* edited and framed by Pablo de Orellana and Nicholas Michelsen brings together the latest research by up and coming early career researchers and scholars Beginning with a succinct history and typology of contemporary nationalism and its predecessors this book offers analysis of several cases of contemporary nationalism examining how specific movements define identity address grievances and propose identity based solutions Key themes and

lessons emerge from the study of a variety of cases from the very ideas animating nationalist thought to their expression in a wide variety of nationalist movements around the world The reflections on the ecosystem of nationalist ideas and movements offered in this volume are a vital starting point in the study of contemporary nationalism as a global twenty first century phenomenon **Research Handbook on Nationalism** Liah Greenfeld,Zeying Wu,2020-09-25 Assembling scholarship on the subject of nationalism from around the world this Research Handbook brings to the attention of the reader research showcasing the unprecedented expansion of the scholarly field in general and offers a diversity of perspectives on the topic It highlights the disarray in Western social sciences and the rise in the relative importance of previously independent scholarly traditions of China and post Soviet societies Nationalism is the field of study where the mutual relevance of these traditions is both most clearly evident and particularly consequential The Idea of Nationalism Hans Kohn,1944 First printing
