Chew, 2018-03-28 The contribution of Southeast Asia to the world economy during the late prehistoric and early historic periods has not received much attention It has often been viewed as a region of peripheral entrep ts especially in the early centuries of the current era Recent archaeological evidence revealed the existence of established and productive polities in Southeast Asia in the early parts of the historic period and earlier This book recalibrates these interactions of Southeast Asia with other parts of the world economy and gives the region its due instead of treating it as little more than of marginal interest **Free Trade and Free Ports in the Mediterranean** Giulia Delogu, Koen Stapelbroek, Antonio Trampus, 2024-07-12 How did free trade emerge in early modern times How did the Mediterranean as a specific region with its own historical characteristics produce a culture in which the free port appeared What was the relation between the type of free trade created in early modern Italy and the development of global trade and commercial competition between states for hegemony in the eighteenth century And how did the position of the free port originally a Mediterranean invention develop over the course of time The contributions to this volume address these questions and explain the institutional genealogy of the free port Free Trade and Free Ports in the Mediterranean analyses the atypical history and conditions of the Mediterranean region in contradistinction with other regions as an explanation for how and why free ports arose there This volume engages with the diffusion of free ports from a Mediterranean to a global phenomenon whilst staying focused on how this diffusion was experienced in the Mediterranean itself The contributions to this volume bring together the traditional issues of religious openness and tolerance in physically separated areas and the role of consuls and governors via fiscal techniques architectural and administrative aspects with questions about geopolitical balance and
