Hose Whipping Hazard

When first starting, after moving the pump, or whenever air may have entered the line, keep everybody a reasonable and prudent distance away from the discharge hose until concrete is flowing smoothly.

Power Line Hazard

Maintain at least a 20-foot distance from power lines (30 feet above 350kV).

Tipping Hazard

Outriggers must be completely extended and the unit jacked to within 1° of level, as described in the operation manual.
