Committee website at www.parliament.uk/educom **New Trends in Qualitative and Quantitative Methods in Libraries** Anthi Katsirikou, 2012 This unique volume presents the latest scientific achievements of library researchers and professionals on the Qualitative and Quantitative Methods of Libraries Scholars and professionals have now an information resource on methodological tools for library services Except for the new technologies that facilitate the innovation of libraries it is the underlying policy and functional changes that have the most lasting effect on the scholarly operation that explains why this volume is important in the field or market It also explores in detail the areas covering library methodologies marketing and management statistics and bibliometrics content and subject analysis users behaviors and library policies that play an important role at every aspect of library research in the twenty first century **14-18 - A New Vision for**

Secondary Education Kenneth Baker, 2013-01-24 Former Secretary of State for Education Kenneth Baker claims that secondary education has become a five year programme with a single narrow aim to prepare pupils for high stakes GCSE exams at 16 From 2015 all young people will be legally required to stay in education or training until they are 18 Kenneth Baker sees this as a historic opportunity to re think the aims and structure of English education He argues that the National Curriculum should extend only to the age of 14 and that there should be four distinct pathways from 14 18 to take account of young people s emerging interests talents and ambitions Liberal Arts Technical Sports and Creative Arts and Career All pathways will provide a broad education but each will have a distinctive character matched to the talents and ambitions of individual students In 14 18 A New Vision for Secondary Education Kenneth Baker builds a compelling case for reform with contributions from a range of educationalists who draw on the history of English education practice elsewhere in the world and their experiences An essential read for anyone interested in the future of secondary education **Sovereign Credit**

Rating Ahmed Naciri, 2016-12-19 The current degradation of sovereign balance sheets raises very real concerns about how sovereign creditworthiness is measured by credit rating agencies Given the disastrous economic and social effects of any downgrade the book offers an alternative and calls for more transparency about the quantitative measures used in

calibrating the rating process and how sovereign ratings are validated It argues that oversight is required and procedures improved including subjecting methodologies of assessing default to more standardization and monitoring Sovereign Credit Rating explains the process of sovereign creditworthiness assessment and explores the consequences of possible inaccuracies in the process Developing an innovative new methodology to assess ratings accuracy it shows that the announcement of each rating action by the major credit rating agencies show alarming inconsistencies Written by an internationally recognized author and professor this unique book will be of interest to researchers and advanced students in corporate governance accounting public finance and regulation
