Bruce Johnstone, Pamela N. Marcucci, 2010-06-07 Examines the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families Growing costs for education far outpace public revenue streams that once supported it Even with financial aid and

scholarships defraying some of these costs students are responsible for a greater share of the cost of higher education Shows
 how economically diverse countries all face similar cost sharing challenges While cost sharing is both politically and
 ideologically debated it is imperative to implement it for the financial health of colleges and universities From publisher
