Financing of Higher Education Donald Heller, Claire Callender, 2013-06-07 The financing of higher education is undergoing great change in many countries around the world In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs There are a number of factors driving these trends including A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates Macroeconomic factors which lead to constraints on overall government revenues Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions students and society as a whole With contributions for the UK USA South Africa and China this vital new book gives a truly global picture of the rapidly changing situation **The A to Z of Careers in South Africa**

Johnstone,Pamela N. Marcucci,2010-06-07 Examines the universal phenomenon of cost sharing in higher education where  
financial responsibility shifts from governments and taxpayers to students and families Growing costs for education far  
outpace public revenue streams that once supported it Even with financial aid and scholarships defraying some of these costs  
students are responsible for a greater share of the cost of higher education Shows how economically diverse countries all  
face similar cost sharing challenges While cost sharing is both politically and ideologically debated it is imperative to  
implement it for the financial health of colleges and universities From publisher description
