In an ever more digitized world it is necessary to embed digital technology in business strategy leading to an overarching phenomenon called the digital business strategy. Accordingly this thesis sets out to advance the understanding the digital business strategy concept in general as well as its influence on a company's performance. At the same time incumbents are often constrained by path dependencies and inertia as executives tend to make use of prior experiences and favor strategic choices they are familiar with over unfamiliar. As a consequence companies may stick to a specific path which restrains transformational change. Accordingly the study elucidates the ongoing digital transformation as it manifests itself in the evolution of incumbents digital business strategies. In addition this thesis seeks to derive important implications for business practice as it helps practitioners to develop a better understanding of digital business strategies especially considering that digitalization challenges the conventional wisdom of competition. This is particularly important as with increasing digitalization tightly integrated digital business strategies will be among the biggest determinants of a company's future success. In einer immer stärker digitalisierten Welt ist es wichtig digitale Technologien in die Geschäftsstrategie eines Unternehmens einzubetten was zu einem bergreifenden Phänomen führt das als digitale Geschäftsstrategie bezeichnet wird. Dementsprechend zielt diese Arbeit darauf ab das Verständnis des Konzepts der digitalen Geschäftsstrategie im Allgemeinen sowie dessen Einfluss auf die Performance eines Unternehmens zu verbessern. Gleichzeitig sind etablierte Unternehmen oft durch Pfadabhängigkeiten und Trägheit eingeschränkt da Führungskräfte dazu neigen auf frühere Erfahrungen zurückzugreifen und strategische Entscheidungen mit denen sie vertraut sind gegenüber unbekannten Optionen zu bevorzugen. In der Folge verharren Unternehmen auf einem bestimmten strategischen Pfad was transformatorischen Wandel hemmt. Dementsprechend beleuchtet die Studie die laufende digitale Transformation und wie diese sich in der Entwicklung der digitalen Geschäftsstrategien etablierter Unternehmen manifestiert. Darüber hinaus

versucht diese Arbeit wichtige Implikationen für die Unternehmenspraxis abzuleiten da sie Praktikern hilft ein besseres Verständnis für digitale Geschäftsstrategien zu entwickeln insbesondere in Anbetracht der Tatsache dass die Digitalisierung die konventionelle Weisheit des Wettbewerbs herausfordert Dies ist besonders wichtig da mit zunehmender Digitalisierung eng integrierte digitale Geschäftsstrategien zu den größten Determinanten für den zukünftigen Erfolg eines Unternehmens gehen werden
