## **Overview**

Digital communication using modern technologies of communication is a continuation age-old human communication combining both old and new means of human communication like voice, image, sound, signs, etc. processed and conveyed by newer technologies like computers, mobile phones, network technologies, software, etc. It is most likely that you may have been using internet-enable mobile phone to communicate (call, texts, browse, transact business, download and play music, etc.). Millions of people all over the world are now using digital technologies in many ways. Even though digital communication is increasingly being used but many aspects: their history, their effects and influence on personal, professional and social spheres of lives are still emerging. While there are general patterns in the spread of digital technologies, every society has its own unique ways it is affected by and interact with digital communication. This chapter shall therefore, focus on examining the various aspects of Nigeria digital communication experience and how it is impacting the Nigerian environment at the level of personal, professional and cultural communications. The chapter particularly examines the concepts and technology of digital communication, types of digital technology, and digital journalism.

## **Objectives**

At the end of this chapter, you should be able to:

1. Identify two definitions of digital communications
2. Narrate how digital technology emerged from analogue communication technologies.
3. Illustrate Media convergence
4. Identify and illustrate digital journalism
5. List four variants of digital journalism
6. Identify tools of digital journalism
7. Identify and explain emerging digital culture in Nigeria.
